Parenthood transforms you. Even before this crisis, you may have experienced a wide range of feelings triggered by pregnancy, birth, and welcoming a new baby. The NICU experience challenges your emotional coping, your developing parental identity, your relationship skills, and your ability to adjust. Intensive Parenting explores the emotions of parenting in the neonatal intensive care unit, from in-hospital through issues and concerns after the child is home. Deborah L. Davis and Mara Tesler Stein describe and affirm the wide range of experiences and emotional reactions that occur in the NICU and offer strategies for parents coping with their baby's condition and hospitalization.

A Guide to Starting Out and Getting On Fulcrum Publishing

This is the second volume of essays and articles on enlightenment and the Enlightenment Intensive from the archive of Charles Berner. It spans the years from 1969 through 2005. I heard Berner say many times that his understanding of Truth evolved as his meditation experiences unfolded. He would advise "If you want to understand what I understand now, then you should look to my latest writings." These essays are placed in a chronological order so you can appreciate the evolution of his understanding. The book begins with a Forward written by Edrid who began his studies with Berner in the early 1960's. Edrid's first-hand recollections of Berner's universe and the beginning formulation of the Enlightenment Intensive is insightful and revealing. Chapter 1 is an article that first appeared in 1969. It is one of Berner's earliest writings on the subject of self enlightenment and the Enlightenment Intensive. Chapter 2, What Is and Is Not Enlightenment, was the first chapter of The Transmission of Truth, published in 1977. Chapter 3 is a first-person account of the experiences of a fictitious individual, Alan B. Dow, who attends an Enlightenment Intensive for the first time. Chapter 4, entitled, Charles in Enlightenment Land was originally a lecture given at an Enlightenment Intensive in the 1970's. Chapter 5, Levels of Enlightenment and Advice On How To Do The Enlightenment Technique, was also a lecture that Berner gave during a long Enlightenment Intensive in the early 1970's. Enlightenment is the title of Chapter 6. It is excerpted from the 2005 book, Consciousness of Truth. Bill Savoie wrote the final chapter entitled, About Charles Berner. In his essay Bill shares his experience and insights about Charles Berner and those early days from which the Enlightenment Intensive was formed.

Environment Modeling-Based Requirements Engineering for Software Intensive Systems Chelsea Green Publishing

Data is at the center of many challenges in system design today. Difficult issues need to be figured out, such as scalability, consistency, reliability, efficiency, and maintainability. In addition, we have an overwhelming variety of tools, including relational databases, NoSQL datastores, stream or batch processors, and message brokers. What are the right choices for your application? How do you make sense of all these buzzwords? In this practical and comprehensive guide, author Martin Kleppmann helps you navigate this diverse landscape by examining the pros and cons of various technologies for processing and storing data. Software keeps changing, but the fundamental principles remain the same. With this book, software engineers and architects will learn how to apply those ideas in practice, and how to make full use of data in modern applications. Peer under the hood of the systems you already use, and learn how to use and operate them more effectively Make informed decisions by identifying the strengths and weaknesses of different tools Navigate the trade-offs around consistency, scalability, fault tolerance, and complexity Understand the distributed systems research upon which modern databases are built Peek behind the scenes of major online services, and learn from their architectures

Paper & Book Intensive Springer Science & Business Media

Teaching grammar can be overwhelming and is often an overlooked part of effective instruction. The Middle School Grammar Toolkit to the rescue! Now in its second edition, this comprehensive guide makes grammar instruction fun and meaningful. You will learn how to: Teach grammar in a practical and applicable way by presenting each grammar rule as a useful writing tool for students. Use mentor texts—excerpts from great literature—to help students understand grammar in action. Promote metacognition along the way, so that students become responsible for their own learning. Implement innovative instructional strategies and tools aligned with Common Core and other state standards. Throughout the book, you'll find step-by-step recommendations for teaching grammatical concepts, such as understanding intensive pronouns, choosing language that expresses ideas precisely, forming verbs in different moods, and maintaining consistency in style and tone, and much, much more. Organized to help students meet the Common Core State Standards and other state language standards for Grades 6–8, the book includes tips addressing teaching for each of these grades, classroom snapshots that show you the tools in action, and specific instructional recommendations to engage students. New! The second edition features revised classroom snapshots and exemplars to showcase successful practices, and new flowcharts to visually represent instructional recommendations. The expanded, free annotated bibliography is updated to include contemporary, high-quality young adult literature and gives examples of key grammatical concepts found in each work. These resources are available as Supplemental Downloads on our website.

The Publishing Business, is an invaluable guide to understanding what book

publishing is and what it might become. Using popular and current examples, this second edition demonstrates that, to succeed, publishers must prove their commitment to producing accurate, attractive and well edited content, their ability to innovate pioneering digital technologies and their dedication to promoting their titles to new audiences. This book explains the responsibilities at each stage of the publishing process, describes current roles and practices, and provides much food for thought on how publishers can ensure their skills remain relevant in the digital age. Fully updated to take into account recent developments in the publishing world, this new edition also includes additional real-world examples from a variety of publishing sectors, insightful interviews with industry experts and new and updated activities throughout. Beautifully designed, thoroughly illustrated and packed with examples of publishing practice, The Publishing Business is an essential introduction to a dynamic industry.

The Middle School Grammar Toolkit Routledge

Co-authored by an interprofessional collaborative team of physicians and nurses, Merenstein & Gardner 's Handbook of Neonatal Intensive Care, 9th Edition is the leading resource for interprofessional, collaborative care of critically ill newborns. It offers comprehensive coverage with a unique interprofessional collaborative approach and a real-world perspective that make it a practical guide for both nurses and physicians. The new ninth edition features a wealth of expanded content on delivery-room care; new evidence-based care "bundles"; palliative care in the NICU; interprofessional collaborative care of parents with depression, grief, and complicated grief; and new pain assessment tools. Updated high-quality references have also been reintegrated into the book, making it easier for clinicians to locate research evidence and standards of care with minimal effort. These additions, along with updates throughout, ensure that clinicians are equipped with the very latest clinical care guidelines and practice recommendations — all in a practical quick-reference format for easy retrieval and review. UNIQUE! Core author team of two physicians and two nurses gives this internationally recognized reference a true interprofessional collaborative approach that is unmatched by any other resource. Consistent organization within clinical chapters include Physiology/Pathophysiology, Etiology, Prevention, Data Collection (History, Signs and Symptoms, and Laboratory Data), Treatment/Intervention, Complications, and Parent Teaching sections. UNIQUE! Color-highlighted point-of-care clinical content makes high-priority clinical content quick and easy to find. UNIQUE! Parent Teaching boxes outline the relevant information to be shared with a patient 's caregivers. Critical Findings boxes outline symptoms and diagnostic findings that require immediate attention to help the provider prioritize assessment data and steps in initial care. Case studies demonstrate how to apply essential content to realistic clinical scenarios for application-based learning. NEW! Updated content throughout reflects the latest evidence-based practice, national and international guidelines, and current protocols for interprofessional collaborative practice in the NICU. NEW! Up-to-date, high-quality references are now reintegrated into the text for quick retrieval, making it easier for clinicians to locate research evidence and standards of care with minimal effort. NEW! Expanded content on delivery-room care includes the impact of staffing on quality of care, delayed cord clamping, resuscitation, and more. NEW! Coverage of the new evidence-based care "bundles" keeps clinicians up to date on new guidelines that have demonstrated improved outcomes of very preterm infants. NEW! Coverage of new pain assessment tools equips NICU providers with essential resources for maintaining patient comfort. NEW! Expanded coverage of palliative care in the NICU provides the tools needed

to ensure patient comfort. NEW! Expanded coverage of interprofessional collaborative care of parents with depression, grief, and complicated grief prepares clinicians for this essential area of practice.

Solar Gardening shows how to increase efforts of the sun during the coldest months of the year and how to protect tender plants from the intensity of the scorching sun during the hottest months through the use of solar "mini-greenhouses." The book includes instructions for building a variety of solar appliances plus descriptions of more than 90 different crops, with charts showing when to plant and harvest each. The result is a year-round harvest even from a small garden. In Solar Gardening the Poissons show you how to: Dramatically increase the annual square-foot yield of your garden. Extend the growing and harvest season for nearly every kind of vegetable. Select crops that will thrive in the coldest and hottest months of the year, without artificial heating or cooling systems. Build solar appliances for your own garden. Armed with nothing but this book and a few simple tools, even novice gardeners can quickly learn to extend their growing season and increase their yields, without increasing the size of their garden plot.
