Every year, more than 20 million students and parents file the Free Application for Federal Student Aid (FAFSA), the gateway to federal, state and school financial aid. Families often worry about making costly mistakes, but this step-by-step guide provides expert advice and insights to:

- Maximize eligibility for student aid
- Avoid common errors
- Complete the form quickly, easily and accurately

Praise for Filing the FAFSA: I found Filing the FAFSA to be an up-to-the-minute, accessible and readable resource for those with a keen interest in the current federal application for student financial aid. -Nancy

Coolidge, Office of the President, University of California Families need a guide that breaks down the application form into logical sections. Filing the FAFSA is an important tool in removing some of the mystery surrounding the financial aid process. -Verna Hazen, Assistant Vice President and Director, Office of Financial Aid and Scholarships, Rochester Institute of Technology

With the plethora of information on the subject of completing college financial applications, it's reassuring to find a guide that students, parents and even guidance counselors can look to for useful and accurate information. -Carlos Adrian, Associate Director, Financial Aid Compliance, Office of Financial Aid and Scholarship Programs, Syracuse University

As a long-time financial aid professional, I am always looking for helpful tools to assist families in understanding the sometimes overwhelming process of applying for student financial aid for college. Filing the FAFSA is a tool that successfully combines the presentation of detailed information with easy to follow flow charts and summary boxes to guide families through the application process. It is filled with helpful hints and is a valuable resource for families navigating the complicated world of financial aid. -Diane Stemper, Executive Director, Office of Enrollment Services, Student Financial Aid, Ohio State University

This publication covers the special tax situations of active members of the U.S. Armed Forces. For federal tax purposes, the U.S. Armed Forces includes commissioned officers, warrant officers, and enlisted personnel in all regular and reserve units under control of the Secretaries of the Defense, Army, Navy, and Air Force. The U.S. Armed Forces also includes the Coast Guard. The Public Health Service and the National Oceanic and Atmospheric Administration can also receive many of the same tax benefits. The U.S. Armed Forces doesn't include the U.S. Merchant Marine or the American Red Cross. Members serving in an area designated or treated as a combat zone are granted special tax benefits. In the event an area ceases to be a combat zone, the IRS will do its best to notify you. Many of the relief provisions will end at that time.

Equity and Excellence in American Higher Education Peterson's College Admission is the ultimate user's manual and go-to guide for any student or family approaching the college application process. Featuring the wise counsel of more than 50 deans of admission, no other guide has such thorough, expert, compassionate, and professional advice. Let's be honest: applying to college can be stressful for students and parents. But here's the good news: you can get in. Robin Mamlet has been dean of admission at three of America's most selective colleges, and journalist and parent Christine VanDeVelde has been through the process first hand. With this book, you will feel like you have both a dean of admission and a parent who has been there at your side. Inside this book, you'll find clear, comprehensive, and expert answers to all your questions along the way to an acceptance letter: • The role of extracurricular activities • What it means to find a college that's the "right fit" • What's more important: high grades or tough courses • What role does testing play • The best candidates for early admission • When help from parents is too much help • Advice for athletes, artists, international students, and those with learning differences • How wait lists work • Applying for financial aid This will be your definitive resource during the sophomore, junior, and senior years of high school.

If you're looking for graduate funding in the sciences, this is the directory to use. Described here are more than 1,200 fellowships, loans, grants, and awards set aside just for students interested in working on a master's or doctoral degree in agricultural sciences, astronomy, biology, chemistry, computer science, dentistry, engineering, environmental sciences, geology, genetics, mathematics, medicine, nursing, nutrition, pharmacology, physics, technology, zoology, or any other scientific field. Here is a sample of the kinds of funding covered in the 1996-1998 edition of Money for Graduate Students in the Sciences: \$16,000 per year for graduate study or research in the space sciences; up to \$21,000 annually for dissertation research in lung disease; tuition and \$13,250 annually for doctoral study in the physical sciences; full tuition and \$14,000 per year for graduate research in math; \$10,000 for graduate research on critical care nursing; and \$10,000 for students working on a graduate degree related to water supply. You'll find it easy to use the directory. Each program is clearly described -with detailed information given on purpose, eligibility requirements,

financial data, duration, special features, limitations, number awarded, and deadline date. Entries are grouped by level (master's and doctoral) and purpose (research or study), so you can zero in on just the kind of aid you need. You'll even find the same convenience in the indexes, where title, organization, geographic coverage, subject, and deadline date entries are subdivided by both level and type of program. This directory is part of a unique three-volume series, published by Reference Service Press, that describes funding available to support graduate study and research. The other volumes cover the humanities and the social sciences. Each volume may be purchased separately.
