Filing the FAFSA Edvisors Network, Inc.

This publication is intended for financial aid administrators and counselors who help students begin the student aid process--filing the Free Application for Federal Student Aid (FAFSA), verifying information, and making corrections and other changes to the information reported on the FAFSA. This guide contains the following chapters: (1) The Application Process: FAFSA to ISIR, which explains that the laws governing the FSA programs require that a person apply for aid with a form provided by the Department of Education and that no fee be charged for processing it. Students can fill out a paper FAFSA or they can apply electronically; (2) Filling Out the FAFSA, which provides guidance that supplements the application instructions, and discusses some of the more difficult questions that may arise; (3) Expected Family Contribution (EFC), which describes the EFC formula in detail; (4) Verification, which provides a list and discussion of required verification items; and (5) Corrections, Updates, and Adjustments, which recognizes that there are situations where the original application information may need to be changed such as when errors need to be corrected, when dependency status, or household size changes, or when an aid administrator makes an adjustment based on professional judgment. A Verification Worksheet is included in this document.

Every parent wants the best for their child. That's why they send them to college! But most parents struggle to pay for school and end up turning to student loans. That's why the majority of graduates walk away with \$35,000 in student loan debt and no clue what that debt will really cost them. 1 Student loan debt doesn't open doors for young adults—it closes them. They postpone getting married and starting a family. That debt even takes away their freedom to pursue their dreams. But there is a different way. Going to college without student loans is possible! In *Debt-Free Degree*, Anthony O'Neal teaches parents how to get their child through school without debt, even if they haven't saved for it. He also shows parents: “How to prepare their child for college “Which classes to take in high school “How and when to take the ACT and SAT “The right way to do college visits “How to choose a major A college education is supposed to prepare a graduate for their future, not rob them of their paycheck and freedom for decades.
