"Social Justice Parenting offers guidance and grace for parents who want to teach their children how to create a fair and inclusive world." —Diane Debrovner, deputy editor of Parents magazine "Replete with excellent examples and advice that can help parents raise children with a healthy self-image and regard for the welfare of others."—Jane E. Brody, New York Times An empowering, timely guide to raising anti-racist, compassionate, and socially conscious children, from a diversity and inclusion educator with more than thirty years of experience. As a global pandemic shuttered schools across the country in 2020, parents found themselves thrust into the role of teacher—in more ways than one. Not only did they take on remote school supervision, but after the murder of George Floyd and the ensuing Black Lives Matter protests, many also grappled with the responsibility to teach their kids about social justice—with few resources to guide them. Now, in Social Justice Parenting, Dr. Traci Baxley—a professor of

inclusion—will offer the essential guidance and curriculum parents have been searching for. Dr. Baxley, a mother of five herself, suggests that parenting is a form of activism, and encourages parents to acknowledge their influence in developing compassionate, socially-conscious kids. Importantly, Dr. Baxley also guides parents to do the work of recognizing and reconciling their own biases. So often, she suggests, parents make choices based on what 's best for their children, versus what 's best for all children in their community. Dr. Baxley helps readers take inventory of their actions and beliefs, develop self-awareness and accountability, and become role models. Poised to become essential reading for all parents committed to social change, Social Justice Parenting will offer parents everywhere the opportunity to nurture a future generation of humane, compassionate individuals.

Kindness is the foundation of the world's great religions and most-enduring philosophies. Why, then, does being kind feel so dangerous? If we crave kindness with such intensity, why is it a pleasure we often deny ourselves? And why—despite our longing—are we often suspicious when we are on the receiving end of it? In this brilliant book, the eminent psychoanalyst Adam Phillips and the historian Barbara Taylor examine the pleasures and perils of kindness. Modern people have been taught to perceive ourselves as fundamentally antagonistic to one another, our motives self-seeking. Drawing on intellectual history, literature, psychoanalysis, and contemporary social theory, this book explains how and why we have chosen loneliness over connection. On Kindness argues that a life lived in instinctive, sympathetic identification with others is the one we should allow ourselves to live. Bursting with often shocking insight, this brief and essential book will return to its readers what Marcus Aurelius declared was mankind's "greatest delight": the intense satisfactions of generosity and compassion.
