Does your child know how to express congratulations to another for a job well done? Does he have the words to show gratitude for a gift received? Could she convey her feelings regarding the death of a loved one or pet? Even if you couldn't answer "yes" to all of the questions, there's one thing that almost everyone knows: kindness is generational and it must be taught. And in *Personal Notes 4 Kids: The Gift of Kindness through Paper and Pen*, the assistant teacher has been found! This book contains more than 250 personal notes specifically written for children (ages 12-18) so that they, too, can have the words to express their feelings about the happy or sad events that take place in the lives of their family members and friends, just as Mom and Dad do. Even better, each note is comprised of only 2 lines that can be edited as needed or copied word for word. They can't argue about that! Thinking about others needs to be instilled and cultivated as early and as often possible. Studies have proved that not only does the physical act of writing add importance to the task at hand, but it also promotes better learning and writing, and helps to keep the brain sharp. Compassion and smarts-that's a winning combo! For most of us, a BIG occasion is just around the corner. When it happens in your family, don't just take the time to talk it out with your child, "write it out" as well. You'll have a healthier, happier, kinder child if you do. George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction

and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times
