Will it be warm or cold? Should we wear shorts or pants? Shoes or rain boots? This picture book explores why the weather can be so hard to predict. Now rebranded with a new cover look, this classic picture book uses colorful, simple diagrams to explain meteorology in a fun, engaging way. Perfect for young readers and budding meteorologists, this bestseller is filled with rich climate vocabulary and clear explanations of everyday weather instruments like thermometers and barometers. Both text and artwork were vetted for accuracy by Dr. Sean Birkel of the Climate Change Institute at the University of Maine. This is a Level 2 Let's-Read-and-Find-Out, which means the book explores more challenging concepts perfect for children in the primary grades and supports the Common Core Learning Standards and Next Generation Science Standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

Scrapbooking aficionados keep coming back for more from Marina du Plessis! And it's little wonder, because she knows exactly what scrapbookers want. In this, her third collection, she offers more cost effective

projects that revolve around her versatile and internationally unique three-dimensional figurines created mostly with paper and imagination. So even if you have less disposable income to devote to your favourite craft than before, Marina's templates for the figurines and lettering and other elements will see you happily scrapping in an affordable manner. Best of all, you can replicate the projects as is, or you can mix and match, vary and choose to create your own personalised layouts. Included in the templates are figurines, frames, letters, titles, tags, envelopes and other decorative elements. The 40+ themes ensure that there is something suitable for girls and boys (of all ages!), and cover birthdays, festivals and special events, weddings, memories, pets and simply good times. Accompanied by full-colour photographs, instructions are clear and easy to understand, for both advanced and beginner scrappers.

A little bat uses brains over brawn in this not-so-scary Halloween picture book. The witch has grown the biggest pumpkin ever, and now she wants to make herself a pumpkin pie for Halloween. But the pumpkin is so big she can't get it off the vine. It's so big the ghost can't move it, either. Neither can the vampire, nor the mummy. It looks as if there'll be no pumpkin pie for Halloween, until along comes the bat with an idea to save the day. How can the tiny bat succeed where bigger and strong spooky creatures have failed? You'll be surprised!

Throughout his life, Benjamin Banneker was known and admired for his work in science, mathematics, and astronomy, just to name a few pursuits. But even when he was born in Maryland in 1731, he was already an extraordinary person for that time period. He was born free at a time in America when most African Americans were slaves. Though he only briefly attended school and was largely self-taught, at a young age Benjamin displayed a keen aptitude for mathematics and science. Inspired by a pocket watch he had seen, at the age of 22 he built a strike clock based on his own drawings and using a pocket-knife. This picture book biography focuses on one episode in a remarkable life.
