Will it be warm or cold? Should we wear shorts or pants? Shoes or rain boots? This picture book explores why the weather can be so hard to predict. Now rebranded with a new cover look, this classic picture book uses colorful, simple diagrams to explain meteorology in a fun, engaging way. Perfect for young readers and budding meteorologists, this bestseller is filled with rich climate vocabulary and clear explanations of everyday weather instruments like thermometers and barometers. Both text and artwork were vetted for accuracy by Dr. Sean Birkel of the Climate Change Institute at the University of Maine. This is a Level 2 Let's-Read-and-Find-Out, which means the book explores more challenging concepts perfect for children in the primary grades and supports the Common Core Learning Standards and Next Generation Science Standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

A group of young space travelers can't wait for their pizza party later, but how many hours away is dinner? What are hours anyway? Readers follow along as a loveable crew of kid astronauts and their Martain friends go about their daily routine, exploring the differences between seconds, minutes, and hours; what A.M. and P.M. mean; and how to tell time on both digital and analog clocks. Ten seconds to liftoff! Are you ready? Veteran children's nonfiction author David Adler incorporates math concepts, such as addition and subtraction, into this fun narrative with problem-solving exercises for readers to tackle at their own pace. Edward Miller's vibrant cartoon art depicts the happy group of friends embarking on space walks, working together on projects, and settling in for bed. The sixteenth book in Alder and Miller's math picture book series, this title is perfect for enthusiastic learners or kids who may need a little extra support in mastering this essential life skill. A glossary explains time zones, daylight savings time, and more. An out-of-this-world STEM book.

Making a piece of wood move is fun, but making it tell time is truly amazing! Inside this book, you ' ll find ingenious plans for creating awesome wooden machines that actually move and keep time. These working wooden wonders might just be the most enjoyable projects you ever build in your shop. Wooden gear clocks are not only fascinating to watch, but can be surprisingly accurate timepieces. Just don ' t expect atomic precision—after all, they ' re modeled on 17th-century technology! But as you build these scroll saw clocks you ' ll use all of the basic principles that still govern mechanical clocks today. Six well-illustrated step-by-step scroll saw projects are arranged by skill level from beginner to advanced, and full-sized scroll saw patterns are attached to the book in a handy pouch. With a little perseverance, you ' ll soon be ticking along happily with your own wooden clockworks. All you have to do is build them, wind them up, and let them run—no batteries required.

A little bat uses brains over brawn in this not-so-scary Halloween picture book. The witch has grown the biggest pumpkin ever, and now she wants to make herself a pumpkin pie for Halloween. But the pumpkin is so big she can't get it off the vine. It ' s so big the ghost can ' t move it, either. Neither can the vampire, nor the mummy. It looks as if there ' ll be no pumpkin pie for Halloween, until along comes the bat with an idea to save the day. How can the tiny bat succeed where bigger and strong spooky creatures have failed? You'll be surprised!
