How to Make a Paper Spinner - Easy Peasy and  
Fun

Making the Spinners First, cut your paper into  
long strips about 2cm wide and however long  
you want. A couple cms from each end (or  
approx. 1 inch), make a small line on opposite  
sides of the strip, as shown in the picture to the  
right. Have your child snip along the lines.

This resource, aimed at primary level, links to the  
topic of forces. Students use a template to make  
paper spinners, and then investigate how fast they  
fall when different variables such as length of  
rotor blade, type of paper or number of paper

clips are changed. The resource contains notes on  
running the activity, background knowledge and  
ideas for further activities.

Paper Clips – Assorted Weights; Paper; Ruler;  
Now, Here ' s What You ' ll Want To Do: Cut a  
strip of paper about 5&1/2 inches X 2 inches;  
Next, cut propellers by using scissors to cut a strip  
up the middle of the length of the paper – Cut  
about 2 & 1/2 to 3 inches; Bend these strips in  
opposite directions creating a propeller  
Science Experiments Using Paper - Simple  
Science

The fact that all objects fall at the same speed  
without air resistance has children in a spin in  
this session. Children ask their own question  
to investigate about their paper spinners and  
work together scientifically to find answers.  
Suitable for Year 6 pupils. Find other lesson  
plans and resources at [www.hamilton-trust.org.uk](http://www.hamilton-trust.org.uk).
