Make a Whirlybird from Paper - Scientific American

The circle is the target area and the bowl is the bull's-eye. Take turns standing on a chair at the edge of the newspaper and dropping your Roto-Copters. At the Exploratorium, we get 3 points for a bull's-eye, 2 points for a copter inside the circle, and one point for just hitting the newspaper-but you can make up any rules you want.

Paper Helicopters - Science | STEM

We also made an emoji spinner version. Either print out two circles from the templates above OR get a small paper plate (approx 10-12cm in diameter and draw two circles). Colour in your circles any way you wish. The colours will "mix" on any concentric circles. (see video for the effect). Be bold and experiment with different designs and ...
