Suicide would appear to be the last taboo. Even incest is now discussed freely in popular media, but the suicide of a loved one is still an act most people are unable to talk about--or even admit to their closest family or friends. This is just one of the many painful and paralyzing truths author Carla Fine discovered when her husband, a successful young physician, took his own life in December 1989. And being unable to speak

openly and honestly about the cause of her pain made it all the more difficult for her to survive. With *No Time to Say Goodbye*, she brings suicide survival from the darkness into light, speaking frankly about the overwhelming feelings of confusion, guilt, shame, anger, and loneliness that are shared by all survivors. Fine draws on her own experience and on conversations with many other survivors--as well as on the knowledge of counselors and mental health professionals. She

offers a strong helping hand and invaluable guidance to the vast numbers of family and friends who are left behind by the more than thirty thousand people who commit suicide each year, struggling to make sense of an act that seems to them senseless, and to pick up the pieces of their own shattered lives. And, perhaps most important, for the first time in any book, she allows survivors to see that they are not alone in their feelings of grief and despair. *The Write to Read Main*

Seminar paper from the year 2018 in the subject English Language and Literature Studies - Literature, grade: 1,0, University of Frankfurt (Main) (Institut für England und Amerikastudien), course: Romeo and Juliet, language: English, abstract: This paper will shed light on the fatal role the Veronese society plays in the deaths of Romeo and Juliet: it imposes strict gender expectations on

them, provides a framework for the patriarchal family structure, and forces the star-crossed lovers into obedience. William Shakespeare lived in a patriarchal environment, dominated and controlled by men, be they husbands or fathers, with women serving as commodities to be traded in matrimonial business transactions between men. The poet is well known for making use of the Elizabethan gender stereotypes in his plays, at times supporting

them, but frequently choosing to bend and challenge them with his characters, as he does with Romeo and Juliet. There is a story of two adolescents falling in love on first sight, as both come from long quarrelling families, the Capulets and the Montagues. Whilst this feud is often identified as the reason for the two lovers' cataclysmic end, other critical factors might be considered. Verona's society imposes strict gender expectations

on both sexes: women are ideally moulded into well-behaved, pretty items of possession, never disagreeing with a man, whereas men are raised to exercise violence and dominance. Not only the stereotypes, but also, and in particular, Verona's family structure pressures the star-crossed lovers to obey their place in society, illustrated even more clearly for Juliet within the play. Romeo and Juliet constantly switch between challenging the

rigorous expectations and questioning their own unconventionality. When their struggle seems increasingly hopeless, and they must bow to society's pressure, the tragedy unfolds.

How to Teach Literature: Introductory Course provides a detailed resource for homeschool or conventional teachers and administrators

interested in an in-depth study of the subject. This fourth and final book in this series of teaching guides includes information not found in literature anthologies such as the following: suggestions for cultivating a love for literature, detailed analyses of each work, questions for review, test questions with suggested responses, essay topics, audio-visual aids, internet resource materials, classroom handouts, and recommended books that enhance teaching. The author emphasizes two basic reasons for teaching literature: It is instructional and delightful.

This book provides a comprehensive methodology for teaching the subject that a teacher could apply to one year's lesson plans without further investment in time. Other books in this series are entitled How to Teach World Literature, How to Teach American Literature, and How to Teach British Literature. www.teachclassiclit.com What do Truman Capote, O. Henry, and Homer have in common? They are all important writers happily included in Elizabeth Marlow's How to Teach Literature: Introductory Course. Elizabeth lifts the reader to

experience the beat in Poe's writing, the stark descriptors in the work of Hemingway, the rhythm of Alfred, Lord Tennyson. She shows us that writing is not just a group of assembled words; it is a matrix of sound, color, meter, and imagery. For an English teacher, this is a helpful reminder and some fresh air. For a student, this is a gateway to the beauty and skill of great writing. To us all, this book is a way for the literature veteran to be challenged, and the newcomer to be lured into the wondrous world of literature. I wholeheartedly recommend this

book. —John Baskam, middle school and high school English teacher at Covenant Christian Academy, Cumming, Georgia This is just the sort of guide I wish I'd had when I was homeschooling my children. Elizabeth Marlow addresses both the big picture, which is the main goal of fostering a lifelong love for classic literature in students, and everyday practical concerns. Parents and teachers will find her trustworthy in her mature spiritual grounding, her impeccable literary taste, and her wealth of experience gained from decades of teaching

literature in a Christian school. The book is well organized and thorough, and her witty, down-to-earth writing style makes it a pleasure to read. —Marcelle Tuggle, veteran homeschool mom

Teaching Shakespeare Into the Twenty-first Century Corwin Press

This book will improve the quality of instruction that college students need. It makes numerous suggestions that must be tended to when teachers instruct students. For example, the authors speculate about ways teachers can present what may at times seem to be a mountain of information without burying students under it; why teachers

must continually update their Internet skills; and whether courses are taught on campus or online, they should not be academic fluff or pedagogical gimmicks. Throughout the book the authors punctuate sentences and paragraphs with metaphors, similes, hyperboles, and ironies in order to adequately capture a panoramic view of the consonance and dissonance that characterizes effective and ineffective teaching. Scattered throughout the book are suggestions about ways teachers can become more responsive to students. For example, it provides suggestions on how classroom and online teachers can consciously manage sounds, movements, colors, and the other aspects of

teaching as though they were like drama, music, ballet, or literature in order to keep students attentive. This is one of the few books that give equal attention to teaching classroom and online courses. Face-to-face teaching is more art than science, so the first part of the book is interpersonally expansive. Online teaching is more technology and science than art. Therefore, the second part of the book is more straightforward, less interpersonal. By reading this book, teachers will find out what will work for him or her, and it provides a lot of interesting information about other teachers, including the authors. Also provided are succinct overviews of several instructional methods,

including their theoretical foundations, that can be used independently or together to enhance the education of college students. Many of the topics discussed in one chapter are revisited in later ones. This spiral approach to learning is actually repetition and supplementation for knowledge transfer. The exercises at the end of each chapter serve dual purposes: they are both self-assessments and summaries of selected data. The book will serve as an excellent resource for would-be, new, and experienced teachers as well as professional development staff and librarians.
