"A somber, disturbing mystery fused with a scathing look at the fashion industry. Mangin writes in a confident, razor-edged style." - Kirkus Reviews Condom dresses and space helmets have debuted on fashion runways. A dead body becomes the trend when a coat made of human skin saunters down fashion's biggest stage. The body is identified as Annabelle Leigh, the teenager who famously disappeared over a decade ago from her boyfriend's New York City mansion. This new evidence casts suspicion back on the former

boyfriend, Cecil LeClaire. Now a monk, he is forced to return to his dark and absurd childhood home to clear his name. He teams up with Ava Germaine, a renegade ex-model. And together, they investigate the depraved and lawless modeling industry behind Cecil's family fortune. They find erotic canes, pet rats living in crystal castles, and dresses made of crushed butterfly wings. But Cecil finds more truth in the luxury goods than in the people themselves. Everyone he meets seems to be wearing a person-suit. Terrified of showing their true selves, the glitterati put on flamboyant public personas to make money and friends. Can Cecil find truth in a world built on lies? In high fashion modeling, selling bodies is organized crime.

A Novel Crown

Landon Reed is an ex-quarterback convicted of organizing a points-shaving scheme. During his time in prison, he found forgiveness and faith and earned his law degree. Now he longs for an opportunity to prove his loyalty and worth. Be careful what you ask for. Harry McNaughton is one of the founding partners of McNaughton & Clay—and the only lawyer willing to take a chance employing an ex-con-turned-lawyer. Though Landon initially questions Harry's ethics and methods, it's clear the crusty old lawyer has one of the most brilliant legal minds Landon has ever encountered. The two dive into preparing a defense for one of the highest-profile

murder trials Virginia Beach has seen in decades when Harry is gunned down in what appears to be a random mugging. Then two more lawyers are killed when the firm's private jet crashes. Authorities suspect someone has a vendetta against McNaughton & Clay, leaving Landon and the remaining partner as the final targets. As Landon struggles to keep the firm together, he can't help but wonder, is the plot related to a shady case from McNaughton & Clay's past, or to the murder trial he's neck-deep in now? And will he survive long enough to find out?

"From the publishers of a popular series of building books comes Small Homes, which is highly relevant for these times. Getting smaller, rather than larger. Some 75 builders share their knowledge of building and design, with artistic, practical, and/or economical homes in the United States, Canada, England, Scotland, France, Germany, Spain, New Zealand and Lithuania. This is the seventh in a series of highly-graphic books on homemade building, all of which are interrelated. The series, "The Shelter Library Of Building Books," include Shelter, Shelter II (1978), Home Work (2004), Builders of the Pacific Coast (2008), Tiny Homes (2012), and Tiny Homes on the Move (2014). Each of these books has over 1,000 photos, and each 2-page spread is carefully laid out with respect to balance of graphics and clarity of information. A running

theme with them is that people have been inspired by one book to build their own home, and this will be included in a subsequent book. For example, many of the homes in Home Work were inspired by Shelter. And so on. The underlying theme with Shelter's books, which has continued for over 40 years, is that it's possible for you to create your own home with your own hands, using natural materials. Some of these homes are in the country, some in small towns, and some in large cities"--

Factor analysis is one of the success stories of statistics in the social sciences. The reason for its wide appeal is that it provides a way to investigate latent variables, the fundamental traits and concepts in the study of individual differences. Because of its importance, a conference was held to mark the centennial of the publication of Charles Spearman's seminal 1904 article which introduced the major elements of this invaluable statistical tool. This book evolved from that

conference. It provides a retrospective look at major issues and developments as well as a prospective view of future directions in factor analysis and related methods. In so doing, it demonstrates how and why factor analysis is considered to be one of the methodological pillars of behavioral research. Featuring an outstanding collection of contributors, this volume offers unique insights on factor analysis and its related methods. Several chapters have a clear historical perspective, while others present new ideas along with historical summaries. In addition, the book reviews some of the extensions of factor analysis to such techniques as latent growth curve models, models for categorical data, and structural equation models. Factor Analysis at 100 will appeal to graduate students and researchers in the behavioral, social, health, and biological sciences who use this technique in their research. A basic knowledge of factor analysis is required and a working knowledge of linear algebra is helpful.

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23

Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most

groundbreaking shows.

How to Cut the Busy B.S. and Live Your Kick-Ass Life HarperCollins

Featuring a rogue group of cheeky animals who love nothing more than a challenge and a flustered, helpless narrator, this meta-leaning and hilarious picture book about animal habitats on every continent will have kids (and their adults!) laughing every time they pick it up. Turtles are found on every continent EXCEPT Antarctica. But not for long! When a David Attenborough-esque narrator explains that turtles are found everywhere except Antarctica, one determined turtle sets out to prove him wrong. After recruiting other non-Antarctic animals along the way—much to the narrator's dismay—the turtle and his adventurous friends travel through fields, forests, and cross an entire ocean to reach their goal. But what exactly do they do once they get there? Perfect for anyone who's ever gone a little too far to prove a point, this nature-documentary-gone-wrong is a gleefully funny lesson in determination and the beauty of having a contingency plan

A new Interplanetary Alliance ambassador on an earthbound mission. A handful of genetically altered humans to be rescued. Meeting her changed everything. Twenty-

four-year-old Zoey doesn't have the time to mope over her recent breakup and deal with the royal mess that is heartbreak. Not when she learns she has alien genetic enhancements and powers beyond her control. And who delivered the news? Her odd, yet attractive downstairs neighbor, Jasper... the New Interplanetary Alliance ambassador. Before being terminated, their former Interplanetary ambassador, Etienne derailed and teamed up with Professor Trenton Beck in a rogue plan that doesn't sit well with the universe. Jasper's mission on Earth was clear: capture the fugitive scientist responsible for the genetic alteration and retrieve the remaining altered survivors. But now, there's Zoey. Fans of Paranormal Romance, Sci-Fi adventure stories and Women's Fiction, will enjoy this fast-paced novel. It explores genetic enhancements leading to superpowers such as telekinesis, atomic dispersion and Interplanetary portalling while taking romance and girl power to a whole new level.

From New York Times bestselling author Gail Carriger comes the delightful sequel to *Imprudence*. Accidentally abandoned! All alone in Singapore, proper Miss Primrose Tunstell must steal helium to save her airship, the Spotted Custard, in a scheme involving a lovesick werecat and a fake fish tail. When she uncovers rumors of a new kind of vampire, Prim and the Custard crew embark on a mission to Peru. There, they encounter airship pirates and strange atmospheric phenomena, and are mistaken for representatives of the Spanish Inquisition. Forced into extreme subterfuge (and some rather ridiculous outfits) Prim must also answer three of life's most challenging questions: Can the perfect book club give a man back his soul? Will her brother ever stop wearing his idiotic velvet fez? And can the amount of lard in Christmas pudding save an entire species?
