In The Paradise Notebooks, Richard J. Nevle and Steven Nightingale take us

across the spectacular Sierra Nevada mountain range on a journey illuminated by incandescent poetry and fascinating fact. Over the course of twenty-one pairs of short essays, Nevle and Nightingale contemplate the natural phenomena found in the Sierra Nevada. From granite to aspen, to fire, to a rare, endemic species of butterfly, these essay pairs explore the natural history and mystical wonder of each element with a balanced and captivating touch. As they weave in vignettes from their ninety-mile backpacking trip across the range, Nevle and Nightingale powerfully reconceive the Sierra Nevada as both earthly matter and transcendental offering, letting us into a reality in which nature holds just as much spiritual importance as it does physical. In

a time of rapid environmental degradation, The Paradise Notebooks offers a way forward—a whole-minded, learned, loving attention to place that rekindles our joyful relationship with the living world.

The funny thing about stop signs is that they're also start signs. Mayzie is the brainy middle sister, Brooks is the beautiful but conflicted oldest, and Palmer's the quirky baby of the family. In spite of their differences, the Gold sisters have always been close. When their father dies, everything begins to fall apart. Level-headed May is left to fend for herself (and somehow learn to drive), while her two sisters struggle with their own demons. But the girls learn that while there are a lot of rules for the road, there are no rules when it comes to the heart. Together, they discover the key to moving on - and it's the key to their father's Pontiac Firebird. This critically acclaimed, totally compelling book is perfect for

readers looking for both a fun ride and a life-changing journey from one of today's best new YA writers. And it fits perfectly in the glove compartment.

The writings of six choreographers are assembled in this book and the leap they have taken to go from the medium of choreography into written text constitutes

a form of translation. Some of the texts investigate the possibilities of written language as invention, others use it as a means to illustrate specific tenets or describe choreographic projects. All yield insight into the process of coaxing language from the body.

The acclaimed Nobel Prize winner challenges our most fiercely held beliefs as she weaves folklore and history, memory and myth into an unforgettable meditation on race, religion, gender, and a far-off past that is ever present—in prose that soars with the rhythms, grandeur, and tragic arc of an epic poem. “They shoot the white girl first. With the rest they can take their time.” So begins Toni Morrison’s *Paradise*, which opens with a horrifying scene of mass violence and

chronicles its genesis in an all-black small town in rural Oklahoma. Founded by the descendants of freed slaves and survivors in exodus from a hostile world, the patriarchal community of Ruby is built on righteousness, rigidly enforced moral law, and fear. But seventeen miles away, another group of exiles has gathered in a promised land of their own. And it is upon these women in flight from death and despair that nine male citizens of Ruby will lay their pain, their terror, and their murderous rage. “A fascinating story, wonderfully detailed. . . . The town is the stage for a profound and provocative debate.” —Los Angeles Times

The Art of Balancing Burnout Psychology Press

Young adults often struggle with confusion or guilt because they perceive themselves as different from others, especially their peers. For some of these individuals, the arts can help them cope with adolescent turmoil, allowing them to express their emotions in poems, stories, painting, songs, and other creative outlets. Sensitive teachers and parents know how important it is for young people to realize that they are not alone in their quest for self-knowledge and finding their way in the world. It can make a difference when readers find something in a book that helps them understand more about who they are and helps them understand others. In *Portrait of the Artist as a Young Adult: The Arts in Young Adult Literature*, Lois Thomas Stover and Connie S. Zitlow examine books in which the coming-of-age for young adults is influenced by the arts. Stover and Zitlow consider the connection

between the arts and a young person's developing sense of self, the use of art to cope with loss and grief, and how young adults can use art to foster catharsis and healing. The young people in these books either identify as artists or use the arts in intentional ways to explore their identities. They often have artistic gifts that make them stand outside the norms of teenage life, yet those gifts also help them find a sense of community. Artists considered in this book include painters, photographers, sculptors, actors, directors, choreographers, dancers, composers, musicians, graffiti artists, and others. The books discussed also explore the ways adults can nurture the artist's development and understand the way young people sometimes use the arts to form their unique identity. Included is an annotated bibliography organized by art discipline, as well as an appendix about using the arts pedagogically, making *Portrait of the Artist as a Young Adult* a valuable resource for educators, parents, librarians, and young adults.

Robots may one day rule the world, but what is a robot-ruled Earth like? Many think the first truly smart robots will be brain emulations or ems. Scan a human brain, then run a model with the same connections on a fast computer, and you have a robot brain, but recognizably human. Train an em to do some job and copy it a million times: an army of workers is at your disposal. When they can be made cheaply, within perhaps a century, ems will displace humans in most jobs. In this new economic era, the world economy may double in size every few weeks. Some say we can't know the future, especially following such a disruptive new technology, but Professor Robin Hanson sets out to prove them wrong. Applying decades of expertise in physics, computer science, and economics, he uses standard theories to paint a detailed picture of a world dominated by ems. While human lives don't change greatly in the em era, em lives are as different from ours as our lives are from those of our farmer and

forager ancestors. Ems make us question common assumptions of moral progress, because they reject many of the values we hold dear. Read about em mind speeds, body sizes, job training and career paths, energy use and cooling infrastructure, virtual reality, aging and retirement, death and immortality, security, wealth inequality, religion, teleportation, identity, cities, politics, law, war, status, friendship and love. This book shows you just how strange your descendants may be, though ems are no stranger than we would appear to our ancestors. To most ems, it seems good to be an em.

Jenkins Reid, New York Times bestselling author of *Daisy Jones & The Six*) author of *Limelight* and *Small Admissions* returns with a hilarious and heartfelt new novel about a perfectly imperfect summer of love, secrets, and second chances. Bridget and Will have the kind of relationship that people envy: they're loving, compatible, and completely devoted to each other. The fact that they're strictly friends seems to get lost on nearly everyone; after all, they're as good as married in (almost) every way. For three decades, they've nurtured their baby, the Forsyth Trio—a chamber group they created as students with their Juilliard classmate Gavin Glantz. In the intervening years, Gavin has gone on to become one of the classical music world's reigning stars, while Bridget and Will have learned to embrace the warm reviews and smaller venues that accompany modest success. Bridget has been dreaming of spending the summer at her well-worn Connecticut country home with her boyfriend Sterling. But her plans are upended when Sterling,

dutifully following his ex-wife's advice, breaks up with her over email and her twin twenty-somethings arrive unannounced, filling her empty nest with their big dogs, dirty laundry, and respective crises. Bridget has problems of her own: her elderly father announces he's getting married, and the Forsyth Trio is once again missing its violinist. She concocts a plan to host her dad's wedding on her ramshackle property, while putting the Forsyth Trio back into the spotlight. But to catch the attention of the music world, she and Will place their bets on luring back Gavin, whom they've both avoided ever since their stormy parting. With her trademark humor, pitch-perfect voice, and sly perspective on the human heart, Amy Poeppel crafts a love letter to modern family life with all of its discord and harmony. In the tradition of novels by Maria Semple and Stephen McCauley, *Musical Chairs* is an irresistibly romantic story of role reversals, reinvention, and sweet synchronicity.

The Sweetheart of Prosper County

Routledge

In this lively and provocative study, Geoff Ward puts forward the bold claim that the founding documents of American identity are essentially literary. America was invented, not discovered, and it remains in thrall to the myth of an earthly Paradise. This is Paradise, and American ideology imprisons as it inspires. *The Writing of America* shows the tension between these forces in a wide range of literary and other texts, from Puritan sermons and the Declaration of Independence, through nineteenth-century classics, to folk and blues lyrics and the popular novel. Alongside his provocative reassessments of canonical writers, Ward offers new material on lost or neglected figures from the world of literature, film and music. His acute and often startling analyses of American literature and culture make this an essential guide to what Lincoln termed the last best hope of earth.

A Handbook on the Jewish Roots of the Christian Faith is a comprehensive handbook that serves as an introduction to the Jewish roots of the Christian Faith. It includes Old Testament background, Second Temple Judaism, the life of Jesus, the New Testament, and the early Jewish followers of Jesus. It is intended as a resource for college and/or higher education. It is no longer a novelty to say that Jesus was a Jew. In fact, the term Jewish roots has become something of a buzzword in books, articles, and especially on the internet. But what does the Jewishness of Jesus actually mean, and why is it important?

This collection of articles aims to address those questions and serve as a comprehensive yet concise primer on the Jewish roots of the Christian faith. It consists of thirteen chapters, most of which are divided into four or five articles. It is in a “handbook” format, meaning that each article is brief but informative. The thirteen chapters are grouped into four major sections: (1) The Soil, (2) The Roots, (3) The Trunk, and (4) The Branches. Craig A. Evans, PhD, DHabil, is the John Bisagno Distinguished Professor of Christian Origins at Houston Baptist University in Texas. He is a frequent contributor to scholarly journals and the author or editor of over seventy books. Evans resides in Houston, TX. David Mishkin, PhD, serves on the faculty of Israel College of the Bible in Netanya, Israel. He is the author of *The Wisdom of Alfred Edersheim and Jewish Scholarship on the Resurrection of Jesus*.
