Working in Gaborone, Botswana, Precious Ramotswe investigates several local mysteries, including a search for a missing boy and the case of the clinic doctor with different personalities for different days of the week.

**The Bounty** One World

An alternative history and geography of the Bay Area that highlights sites of oppression, resistance, and transformation. A People's Guide to the San Francisco Bay Area looks beyond the mythologized image of San Francisco to the places where collective struggle has built the region. Countering romanticized commercial narratives about the Bay Area, geographers Rachel Brahinsky and Alexander Tarr highlight the cultural and economic landscape of indigenous resistance to colonial rule, radical interracial and cross-class organizing against housing discrimination and police violence, young people demanding economically and ecologically sustainable futures,

and the often-unrecognized labor of farmworkers and everyday people. The book asks who had—and who has—the power to shape the geography of one of the most watched regions in the world. As Silicon Valley's wealth dramatically transforms the look and feel of every corner of the region, like bankers' wealth did in the past, what do we need to remember about the people and places that have made the Bay Area, with its rich political legacies? With over 100 sites that you can visit and learn from, this book demonstrates critical ways of reading the landscape itself for clues to these histories. A useful companion for travelers, educators, or longtime residents, this guide links multicultural streets and lush hills to suburban cul-de-sacs and wetlands, stretching from the North Bay to the South Bay, from the East Bay to San Francisco. Original maps help guide readers, and thematic tours offer starting points for creating your own routes through the region.

**The Key to the Golden Firebird** Harper Collins

The young intellectuals J. and Elena leave behind their comfortable lives, the parties and the money in Medellín to settle down on a remote island. Their plan is to lead the Good Life, self-sufficient and close to nature. But from the very start, each day brings small defeats and imperceptible dramas, which gradually turn paradise into hell, as their surroundings inexorably claim back every inch of the 'civilisation' they brought with them. Based on a true story, In the

Beginning Was the Sea is a dramatic and searingly ironic account of the disastrous encounter of intellectual struggle with reality - a satire of hippyism, ecological fantasies, and of the very idea that man can control fate.

I Should be Extremely Happy in Your Company

Since the death of her husband, Anne Dunne and her three children have struggled in every way. In a last ditch effort to save the family, Anne plans an elaborate sailing vacation to bring everyone together once again. But only an hour out of port, everything is going wrong. The teenage daughter, Carrie, is planning to drown herself. The teenage son, Mark, is high on drugs and ten-year-old Ernie is nearly catatonic. This is the worst vacation ever. Anne manages to pull things together bit by bit, but just as they begin feeling like a family again, something catastrophic happens. Survival may be the least of their concerns. Written with the blistering pace and shocking twists that only James Patterson can master, SAIL takes "Lost" and "Survivor" to a new level of terror.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new,

explosive fiction series based on the real-life, top-secret history of US black ops.

Ghost Medicine Harper Collins

New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? These Truths tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic

populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," These Truths observes. "It can't be shirked. There's nothing for it but to get to know it."

**The Giving Heart** Harry N. Abrams  
In *The Paradise Notebooks*, Richard J. Nevele and Steven Nightingale take us across the spectacular Sierra Nevada mountain range on a journey illuminated by incandescent poetry and fascinating fact. Over the course of twenty-one pairs of short essays, Nevele and Nightingale contemplate the natural phenomena found in the Sierra Nevada. From granite to aspen, to fire, to a rare, endemic species of butterfly, these essay pairs explore the natural history and mystical wonder of

each element with a balanced and captivating touch. As they weave in vignettes from their ninety-mile backpacking trip across the range, Nevele and Nightingale powerfully reconceive the Sierra Nevada as both earthly matter and transcendental offering, letting us into a reality in which nature holds just as much spiritual importance as it does physical. In a time of rapid environmental degradation, *The Paradise Notebooks* offers a way forward—a whole-minded, learned, loving attention to place that rekindles our joyful relationship with the living world.

Celebrated historian Diana Preston presents betrayals, escapes, and survival at sea in her account of the mutiny of the *Bounty* and the flight of convicts from the Australian penal colony. The story of the mutiny of the *Bounty* and William Bligh and his men's survival on the open ocean for 48 days and 3,618 miles has become the stuff of legend. But few realize that Bligh's escape across the seas was not the only open-boat journey in that era of British exploration and colonization. Indeed, 9 convicts from the Australian penal colony, led by Mary Bryant, also traveled 3,250 miles across the open ocean and some uncharted seas to land at the same port Bligh had reached only months before. In this meticulously researched dual narrative of survival, acclaimed historian Diana Preston provides the background and context to explain the thrilling open-boat voyages each party survived and the Pacific Island nations each encountered on

their journey to safety. Through this deep-dive, readers come to understand the Pacific Islands as they were and as they were perceived, and how these seemingly utopian lands became a place where mutineers, convicts, and eventually the natives themselves, were chained.

The Age of Em John Wiley and Sons  
Everything about Sarah Bernhardt is fascinating, from her obscure birth to her glorious career--redefining the very nature of her art--to her amazing (and highly public) romantic life, to her indomitable spirit. Well into her seventies, after the amputation of her leg, she was performing under bombardment for soldiers during World War I and toured America for the ninth time. Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.

The story behind the creation of Alexander Cruden's *Cruden's Concordance* to the Bible describes how the late-seventeenth-century writer spent much of his life in asylums in spite of a probability that he was sane. Reprint.

**The No. 1 Ladies' Detective Agency** Penguin  
Not every child who dies goes on to the afterlife. Some are caught halfway between life and death, in a sort of limbo known as Everlost: a shadow of the living world, filled with all the things and places that no longer exist. It's a magical, yet dangerous place where bands of lost kids run wild and anyone who stands in the same place too long sinks to

the center of the Earth. Allie and Nick don't survive the car crash, and end up in Everlost, where coins are more valuable than anyone knows, fortune cookies tell the truth, monsters are real, and the queen of lost souls lives in a once-beloved tower. Nick and Allie have to learn to survive in a world with different rules, and figure out who they can trust--and who they must oppose at all costs. At stake is nothing less than the fate of Everlost and the living world they have left behind. In this gripping trilogy, Neal Shusterman explores questions of life, death, and what just might lie in between.

Earth Bound University of California Press

In the limbo that's Everlost, Mary, Nick, Allie, and others face the decisions that will determine whether that place and the Earth itself will continue to exist, as well as where their own futures lie.

*Unconventional Warfare (Special Forces, Book 1)* Simon and Schuster  
Has history been wrong for 200 years? Read the startling truth about the mutiny on the *Bounty*, its characters, causes, and aftermath. Television rights are now in development with Ridley Scott's Scott Free Productions. More than two centuries after Master's Mate Fletcher Christian led a mutiny against Lieutenant William Bligh on a small, armed transport vessel called *Bounty*, the true story of this enthralling adventure has become obscured by the legend. Combining vivid characterization and deft storytelling, Caroline Alexander shatters the centuries-old myths surrounding this story. She brilliantly shows how, in a desperate attempt to save one man from the gallows and another from ignominy, two powerful families came together and began to create the

version of history we know today. The true story of the mutiny on the Bounty is an epic of duty and heroism, pride and power, and the assassination of a brave man's honor at the dawn of the Romantic age.

**Alexander the Corrector** Simon and Schuster Meet Grace, who just moved to San Francisco.

It's a tiny bit scary starting over, but it gets scarier when a minotaur walks in the door. And even more shocking when a girl who looks exactly like Grace turns up to fight it. . .

Gretchen is fed up of monsters pulling her out into the small hours, especially on a school night. Getting rid of a minotaur is just another notch on her combat belt, but she never expected to run into a girl who could be her double in the process. . . Greer has her life pretty well put together, thank you very much. But everything tilts sideways when two girls who look eerily like her appear on her doorstep and claim they're all sisters. . . These three teen descendants of Medusa must reunite and embrace their fates!

Two all-new novellas that cross the boundaries of desire. Exiled by Maya Banks...Enticed to the island paradise where an enigmatic prince is living in exile, beautiful, virginal Talia is introduced to a world of forbidden pleasure where the prince's every whim is fulfilled and her fantasies are rendered in exquisite detail. But when the prince is summoned back to fulfill his duty to his struggling country, reality is thrust upon Talia all too soon. She returns home, heartbroken, convinced she was a passing fancy for an idle ruler and his most trusted men. Until the day they arrive on her doorstep, determined to have her back where she belongs. Sway by Lauren Dane...Levi Warner is an established, older man—wealthy, powerful, and above all, respectable. Then Levi meets Daisy, an uninhibited 24-year-old dance instructor and artist, not exactly the

kind of woman Levi is accustomed to. But the young, free spirit, brings out something in him he only experienced in fantasies. When their scorching affair turns into something unexpectedly deeper, Levi finds himself torn between preserving his reputation, and exploring a wilder and much more satisfying kind of life.

Cherished Harper Collins

Spend a white Christmas on Summer Island, where the fires are warm and the romance is hotter Lila Sloan wonders why she ever thought house-sitting for her sister Meg on the remote Summer Island was a good idea. And to make matters worse, local real estate developer Beck Grainger is trying to cut down the beautiful trees that line the property. Lila can't let this happen; Meg will never forgive her. Beck can understand Lila's anger—sort of. The trees are actually on the neighboring property, and the land was zoned for development months ago, so his plans were no secret. But he dislikes being at odds with his friend's sister, especially because Lila is appealing in every way: loyal, quick-witted and completely stunning. Lila hates that she's so attracted to Beck, who seems like a genuinely good man, despite his tree-murdering tendencies. And their chemistry is off the charts. She just wishes he'd let this development go. As Summer Island counts down to a snowy Christmas, Lila and Beck will have to strike a compromise that seems impossible for them both—or risk losing the best thing either of them has ever had.
