Both Christian educators and parents will find proven help in creating a positive learning atmosphere through methods pioneered by Charlotte Mason that show how to develop a child's natural love of learning. The professional educators, administrators, and Mason supporters contributing to this volume give useful applications that work in a variety of educational settings, from Christian schools to homeschools. A practical follow-up to Crossway's *For the Children's Sake*, this book follows a tradition of giving serious thought to what education is, so that children will be learning for life and for everlasting life.

When Children Love to Learn Thorndike

Originally published in 1905, this book argues that the educational outlook was rather misty and depressing both at home and abroad. That science should be a staple of education, that the teaching of Latin, of modern languages, of mathematics, must be reformed, that nature and handicrafts should be pressed into service for the training of the eye and hand, that boys and girls must learn to write English and therefore must know something of history and literature; and, on the other hand, that education must be made more technical and utilitarian - these, and such as these, are the cries of expedience with which we take the field. But we have no unifying principle, no definite aim; in fact, no philosophy of education. The Montessori Method Simon and Schuster Discover practical strategies to make reading aloud a meaningful family ritual. The stories we read--and the conversations we have about them--help shape family traditions, create lifelong memories, and become part of our legacy. Reading aloud not only has the power to change a family--it has the power to change the world. But we all know that connecting deeply with our families can be difficult in our busy, technology-driven society. Reading aloud is one of the best ways to be fully present with our children, even after they can read themselves, but it isn't always easy to do. After Charlotte Mason died in 1923, the PNEU held a memorial service in her honor, though (quite appropriately) it more resembled an educational conference. Dozens of friends, acquaintances, admirers, students and fellow educators attended the event. Those who had spent years observing her life and work warmly described her impact on their own lives and careers. These sentiments-some philosophical, some personal-were recorded in the book you are now holding. *In Memoriam* is biography, memoir and philosophical commentary all in one. For the Children's Sake Ravenio Books

Over the last four decades, American hospitals have seen a steady increase in children suffering from psychological disorders, peer violence, and suicide attempts. To figure out why this is happening and how to put an end to it, child psychologist Dr. Charlotte Peterson has been spending six months every five years living in indigenous villages and observing their parenting practices. What she's found is that the people of peaceful cultures, particularly the Tibetan, Bhutanese, and Balinese people, know something we Westerners, despite our modernity, don't, and their children are happier, healthier, and more balanced because of it. What Dr. Peterson has found is that the children in these cultures are raised with a high degree of cherishing and empathy. Attachments are promoted by intensive nurturing of infants and gentle, clear limit-setting with toddlers that teaches self-control and builds self-esteem. The result, as Dr. Peterson has found after visiting these places again and again, is children who are trusting, enjoyable, and kind, –not

“spoiled,” as we might imagine. The Mindful Parent brings together Dr. Peterson's village interviews, observations, research, and over thirty-five years of work as a psychologist to teach modern parents how to raise healthier, more well-balanced, and kinder children. It includes creative ideas from parents who are currently adopting these practices and balancing other aspects of their personal, career, and financial responsibilities to assure their children get the support they need to thrive.

Set aside ineffective practices, such as scolding, ignoring the offense, or merely administering punishment. Ginger Hubbard, the bestselling author of *Don't Make Me Count to Three!*, lays out a simple, Bible-based strategy for parents to help their kids tame their tongues and walk in the

transforming power of Christ. Are you ever embarrassed or shocked by what comes out of your child's mouth? Do you raise your voice, threaten, and coerce, but find yourself frustrated because nothing seems to work? In *I Can't Believe You Just Said That!*, Ginger Hubbard provides a practical, three-step plan to reach beyond the behaviors of tongue-related struggles—such as lying, tattling, and whining—to address your child's heart. After all, as Matthew 12:34 tells us, "the mouth speaks what the heart is full of."

This little book is confined to very simple "reading lessons upon the Form and Motions of the Earth, the Points of the Compass, the Meaning of a Map: Definitions." The shape and motions of the earth are fundamental ideas—however difficult to grasp. Geography should be learned chiefly from maps, and the child should begin the study by learning "the meaning of map," and how to use it. These subjects are well fitted to form an attractive introduction to the study of Geography: some of them should awaken the delightful interest which attaches in a child's mind to that which is wonderful—incomprehensible. The Map lessons should lead to mechanical efforts, equally delightful. It is only when presented to the child for the first time in the form of stale knowledge and foregone conclusions that the facts taught in these lessons appear dry and repulsive to him. An effort is made in the following pages to treat the subject with the sort of sympathetic interest and freshness which attracts children to a new study. A short summary of the chief points in each reading lesson is given in the form of questions and answers. Easy verses, illustrative of the various subjects, are introduced, in order that the children may connect pleasant poetic fancies with the phenomena upon which "Geography" so much depends. It is hoped that

these reading lessons may afford intelligent teaching, even in the hands of a young teacher. The first ideas of Geography—the lessons on “Place”—which should make the child observant of local geography, of the features of his own neighbourhood, its heights and hollows and level lands, its streams and ponds—should be conveyed viva voce. At this stage, a class-book cannot take the place of an intelligent teacher. Children should go through the book twice, and should, after the second reading, be able to answer any of the questions from memory. Charlotte M. Mason

recommends those methods to a wider audience. She wanted to reform and regenerate the educational practices of Great Britain in the early 20th century, but 21st century readers will find her ideas just as potent, just as penetrating, and even more refreshing than they were when they were originally penned. Her first principle is "Children are born persons": not machines, not animals, not accidental conglomerations of cells, but persons, with all the magnificent possibilities that personhood implies. The education we should offer a person is the education Charlotte Mason offers to us.

This is Charlotte Mason as you have not seen her before: *Mind to Mind* is her well-seasoned final work, originally titled *An Essay Towards a Philosophy of Education*. Divested of outdated material, the essential philosophy is brought into sharp relief. Ms. Mason wrote, "The message for our age is, Believe in mind, and let education go straight as a bolt to the mind of the pupil." Our generation needs to hear that message more acutely than ever. Karen Glass, with deep respect for the original, has preserved the essentials in Ms. Mason's own words, while delivering the material in a format that speaks to today's readers. This book is an abridgment in the literal Latin sense of "to shorten." What has been shortened is not merely the length of the original volume, but the path between the modern reader and the mind of Charlotte Mason. In this book, Charlotte Mason presents the vital principles that underlie her methods, and with the confidence of many decades of practice behind her,

SOME OPINIONS OF THE PRESS ON "THE SAVIOUR OF THE WORLD" VOL. II. HIS DOMINION

These reviews/comments followed the original release of His Dominion in 1908. Miss Charlotte Mason has now given us the second instalment of her elaborate work in verse on "The Saviour of the World." . . . Miss Mason renders into graceful and original verse part of the story of Christ as found in the Gospels. She seeks to cover each incident in His career, and each notable saying to which He gave utterance, in a single poem, the series to form a complete story. Her obvious sincerity and the high aim which is everywhere apparent make her pleasing verses singularly attractive. She is reverent throughout and always dignified. -Dundee Advertiser

Miss Mason has much of the subtle skill of Browning, and her effusions breathe everywhere a spirit of deep devotion to "The Saviour of Mankind." -Catholic Times

Miss Mason's gracefully versified tractate in Christian theology—for that is what the poem

is—should be read without weariness by the devout . . . On its literary side the book will readily evoke the admiration and sympathy of readers who like to have familiar lessons of Christianity refreshed by good workmanship in metrical art. -Scotsman

The first volume met with a very cordial reception, and now the talented authoress gives her second volume to the world. . . . The authoress employs the choicest language, and shows great skill in versification. The whole work, in fact, aims at giving the whole of the Gospel story in verse—not a small task, by any means, but one for which Miss Mason seems to be specially endowed. -Western Mail

Miss Mason here continues what she modestly describes as a "paraphrase in verse" of the Gospel story. As the writer aptly remarks, such a theme as this, in its sacred utterances and dramatic situations, finds a better medium of presentation in poetry than in prose. The first stage or act of the inspired narrative, The Holy Infancy, being completed, Miss Mason passes on to the Ministry of Our Lord at its commencement and first teaching (Sermon on the Mount and earlier parables), and first miracles . . . the sequence of the work is marked no less by the skill of the author than by the reverent spirit in which it is composed. Echoes of George Herbert and of Isaac Williams are to be caught here and there in the various

pieces, as. E.g. where paraphrasing a passage in the Sermon on the Mount, Miss Mason writes: –
"Nay, keep thy soul at eve, Nor e'er perceive
The heavy odour of an unchaste thought." It
would be difficult to express better the
"atmosphere" of the new Paradise "regained" by
Christ in place of that which was lost.
–Bookseller The same careful, reverent handling
of holy things characterises this new volume,
which, like the former, is a paraphrase, in
blank verse chiefly, of the Gospel narrative.
