From the #1 New York Times best-selling author of *The Darkest Minds* comes a sweepingly ambitious, high-octane tale of power, destiny, love, and redemption. Every seven years, the Agon begins. As punishment for a past rebellion, nine Greek gods are forced to walk the earth as mortals. They are hunted by the descendants of ancient bloodlines, all eager to kill a god and seize their divine power and immortality. Long ago, Lore Perseus fled that brutal world, turning her back on the hunt's promises of eternal glory after her family was murdered by a rival line. For years she's pushed away any thought of revenge against the man—now a god—responsible for their deaths. Yet as the next hunt dawns over New York City, two participants seek her out: Castor, a childhood friend Lore believed to be dead, and Athena, one of the last of the original gods, now gravely wounded. The goddess offers an alliance against their mutual enemy and a way to leave the Agon behind forever. But Lore's decision to rejoin the hunt, binding her fate to Athena's, will come at a deadly cost—and it may not be enough to stop the rise of a new god with the power to bring humanity to its knees.

The Neurotic Parent's Guide to College Admissions Simon and Schuster

When first published, this guide for parents of children and teens with Tourette syndrome (TS) was the only book to offer up-to-date information and advice for families. Now in an updated edition, **CHILDREN WITH TOURETTE SYNDROME** offers even more. There's new information on the latest research and medical developments in the field, and sections on education, legal rights, family life, daily care, and emotional issues are thoroughly revised. Written by leading experts in the field and experienced parents, this guide provides an excellent blend of professional expertise and empathetic advice. Families with newly diagnosed children find answers to their most pressing questions about this often perplexing neurological disorder, as well as coping strategies and emotional support. The second edition includes new information about the effects of Tourette syndrome at different stages of development from childhood into adulthood. There's more on coexisting conditions such as obsessive-compulsive disorder, Asperger syndrome, and learning disabilities. The book also provides an overview of the biochemistry of TS, what to expect from a medical workup, as well as a discussion of more than 30 different drugs used to treat TS and related conditions. There are strategies for coping with many of the challenging characteristics of TS such as impulsivity, obsessive thoughts, attention and sleep problems, and difficulties with sensory integration. A new chapter on Habit Reversal Training (HRT) explains how this behavior intervention can help some people control tics. Parents find the latest on special education rights, and expanded information on how to design an appropriate education plan for their child. For families raising a child with TS, this comprehensive handbook gives them hope and relieves their sense of isolation. It's also essential reading for professionals and teachers who need to understand this complex disorder. Praise for the previous edition: "Provides parents with useful coping strategies while focusing on ways to encourage children to reach their highest potential." —LIBRARY JOURNAL

Pony I Wish You All the Best

"This is the book parents have been waiting for"—Michael Thompson, coauthor of *Raising Cain*. The book that is "helpful, hopeful, and engaging"—Jeanne Brooks-Gunn, Ph.D., Columbia University. It is the book that addresses the new reality for parents of kids in their 20s and the issues that everyone in the media is talking about: When will this new generation of 20-somethings leave home, find love, start a career, settle down—grow up? And it's the book that will soothe your nerves. It's loaded with information about what to expect and guidance on what to do when problems arise (as they probably will). In other words, this is the book parents need—*Getting to 30*, by Jeffrey Jensen Arnett, the world's leading authority on the post-adolescent phase he named emerging adulthood, and Elizabeth Fishel, author of *Sisters* and other books. As *Getting to 30* shows, the road to adulthood is longer than we think—and, for parents, bumpier. It explains what's really happening to your 18- to 29-year-old, including the story behind your child's moods. The phenomenon of the boomerang child—and why it's actually a good thing, for parents and kids. The new landscape of 20-something romance. And it gives all the tools parents need to deal with the challenges, from six ways to listen more than you talk, to knowing when to open (and close) the Bank of Mom and Dad while saving for retirement, to figuring out the protocol for social media. Published in hardcover as *When Will My Grown-Up Kid Grow Up?*, *Getting to 30* includes the latest research on the optimistic and supportive attitude most parents have regarding their 20-something children.

Take coparenting to the next level and provide a stable environment for your children as you and your spouse begin tackling your separation or divorce. For parents who are separating and want to put their children first, birdnesting could be the interim custody solution you've been looking for. Instead of the children splitting their time being shuttled between mom and dad's separate homes, birdnesting allows the children to stay in the "nest" and instead, requires mom and dad to swap, allowing each parent to stay elsewhere when not with the children. Initially popularized by celebrities, this method of coparenting is now becoming more mainstream as a way to help ease children into a new family dynamic. Birdnesting takes work and

commitment but with Dr. Ann Gold Buscho's guidance, you'll learn everything you need to know about this revolutionary method. In *The Parent's Guide to Birdnesting*, you will discover the pros and cons, the financial and interpersonal considerations, and if it's the right decision for you and your family.

Depicting with humor and insight the pressure to be outwardly perfect, this novel for ages 10-13 shows how one girl develops compassion for her own and others' imperfections. For 13-year-old Isabelle Lee, whose father has recently died, everything's normal on the outside. Isabelle describes the scene at school with bemused accuracy--the self-important (but really not bad) English teacher, the boy that is constantly fixated on Ashley Barnum, the prettiest girl in class, and the dynamics of the lunchroom, where tables are turf in a all-eyes-open awareness of everybody's relative social position. But everything is not normal, really. Since the death of her father, Isabelle's family has only functioned on the surface. Her mother, who used to take care of herself, now wears only lumpy, ill-fitting clothes, cries all night, and has taken every picture of her dead husband and put them under her bed. Isabelle tries to make light of this, but the underlying tension is expressed in overeating and then binging. As the novel opens, Isabelle's little sister, April, has told their mother about Isabelle's problem. Isabelle is enrolled in group therapy. Who should show up there, too, but Ashley Barnum, the prettiest, most together girl in class.
