William Grannetino served in the US navy during World War II. From the day he landed on Omaha Beach to the morning he sailed out of the Pacific theatre for the last time, he was surrounded by violence, trauma, death, and a comradeship unparalleled in civilian life. Through the pen of Grannetino's son, readers are provided a glimpse of a sailor's gut-wrenching realities of war as he relates details about little-known landings that happened ahead of the initial D-Day assault and unique facts somehow lost in history.

Compelling descriptions of street to street fighting in the city of Caen, the urgency of rushing military support to the Battle of the Bulge, and the terror of Kamikaze attacks in the Pacific, transport readers right to the battle zone. From the jubilation over the end of hostilities to the devastation of Hiroshima and Nagasaki, Tom Grannetino has captured his father's stories and crafted an historical and deeply personal account of one man's experiences in the Second World War.

Ugly as sin, the ugly duckling—or maybe you fell out of the ugly tree? Let's face it, we've all used the word "ugly" to describe someone we've seen—hopefully just in our private thoughts—but have we ever considered how slippery the term can be, indicating anything from the slightly unsightly to the downright revolting? What really lurks behind this most favored insult? In this actually beautiful book, Gretchen E. Henderson casts an unfazed gaze at ugliness, tracing its long-standing grasp on our cultural imagination and highlighting all the peculiar ways it has attracted us to its repulsion. Henderson explores the ways we have perceived ugliness throughout history, from ancient Roman feasts to medieval grotesque gargoyles, from Mary Shelley's Frankenstein to the Nazi Exhibition of Degenerate Art. Covering literature, art, music, and even the cutest possible incarnation of the term—Uglydolls—she reveals how ugliness has long posed a challenge to aesthetics and taste. She moves beyond the traditional philosophic argument that simply places ugliness in opposition to beauty in order to dismantle just what we mean when we say "ugly." Following ugly things wherever they have trod, she traverses continents and centuries to delineate the changing map of ugliness and the profound effects it has had on the public imagination, littering her path with one fascinating tidbit after another. Lovingly illustrated with the foulest images from art, history, and culture, Ugliness offers an oddly refreshing perspective, going past the surface to ask what "ugly" truly is, even as its meaning continues to shift.

How would Paris look if images from its glorious past were placed side-by-side with photographs of the city today? In Paris: A Journey Through Time, Leonard Pitt does just this. With a stunning array of archival and contemporary photos he peels away the many layers of old Paris to document the city's transformation with events such as the demolition of a section of rue Beaubourg in 1975 and its eventual reconstruction into modern condos and a shopping center, or the narrow cobblestoned rue du Four becoming the wide, paved street we know today bustling with automobiles and bicycles. Along with these photos from the past and present come detailed maps for walking tours with old schematics and plans for construction that may or may not have been carried out, illustrating the strange ways that a city can develop over hundreds of years. Painstakingly researched, Paris: A Journey Through Time is a tour through Paris, seen through the lens of photographers who lived during each golden age of demolition and construction, and compiled into one tremendous account of the true hidden Paris.

Is the Book of Mormon the Great American Novel? Decades before Melville and Twain composed their great works, a farmhand and child seer named Joseph Smith unearthed a long-buried book from a haunted hill in western New York State that told of an epic history of ancient America, a story about a family that fled biblical Jerusalem and took a boat to the New World. Using his prophetic gift, Joseph translated the mysterious book into English and published it under the title The Book of Mormon. The book caused an immediate sensation, sparking anger and violence, boycotts and jealousy, curiosity and wonder, and launched Joseph on a wild, decades-long adventure across the American West. Today The Book of Mormon, one of the most widely circulating works of American literature, continues to cause controversy—which is why most of us know very little about the story it tells. Avi Steinberg wants to change that. A fascinated nonbeliever, Steinberg spent a year and a half on a personal quest, traveling the path laid out by Joseph's epic. Starting in Jerusalem, where The Book of Mormon opens with a bloody murder, Steinberg continued to the ruined Maya cities of Central America—the setting for

most of the The Book of Mormon's ancient story—where he gallivanted with a boisterous bus tour of believers exploring Maya archaeological sites for evidence. From there the journey took him to upstate New York, where he participated in the true Book of Mormon musical, the annual Hill Cumorah Pageant. And finally Steinberg arrived at the center of the American continent, Jackson County, Missouri, the spot Smith identified as none other than the site of the Garden of Eden. Threaded through this quirky travelogue is an argument for taking The Book of Mormon seriously as a work of American imagination. Literate and funny, personal and provocative, the genre-bending The Lost Book of Mormon boldly explores our deeply human impulse to write bibles and discovers the abiding power of story.

An exemplary travelogue of danger and achievement by the Frenchwoman Madame Alexandra David-Neel of her 1923 expedition to Tibet, the fifth in her series of Asian travels, and her personal recounting of her journey to Lhasa, Tibet's forbidden city. In order to penetrate Tibet and reach Lhasa, she used her fluency of Tibetan dialects and culture, disguised herself as a beggar with yak hair extensions and inked skin and tackled some of the roughest terrain and climate in the World. With the help of her young companion, Yongden, she willingly suffered the primitive travel conditions, frequent outbreaks of disease, the ever-present danger of border control and the military to reach her goal. The determination and sheer physical fortitude it took for this woman, delicately reared in Paris and Brussels, is inspiration for men and women alike. David-Neel is famous for being the first Western woman to have been received by any Dalai Lama and as a passionate scholar and explorer of Asia, hers is one of the most remarkable of all travellers' tales.

In Paris in the Dark Eric Smoodin takes readers on a journey through the streets, cinemas, and theaters of Paris to sketch a comprehensive picture of French film culture during the 1930s and 1940s. Drawing on a wealth of journalistic sources, Smoodin recounts the ways films moved through the city, the favored stars, and what it was like to go to the movies in a city with hundreds of cinemas. In a single week in the early 1930s, moviegoers might see Hollywood features like King Kong and Frankenstein, the new Marlene Dietrich and Maurice Chevalier movies, and any number of films from Italy, Germany, and Russia. Or they could frequent the city's ciné-clubs, which were hosts to the cinéophile subcultures of Paris. At other times, a night at the movies might result in an evening of fascist violence, even before the German Occupation of Paris, while after the war the city's cinemas formed the space for reconsolidating French film culture. In mapping the cinematic geography of Paris, Smoodin expands understandings of local film exhibition and the relationships of movies to urban space.

The #1 bestseller that tells the remarkable story of the generations of American artists, writers, and doctors who traveled to Paris, the intellectual, scientific, and artistic capital of the western world, fell in love with the city and its people, and changed America through what they learned, told by America's master historian, David McCullough. Not all pioneers went west. In *The Greater Journey*, David McCullough tells the enthralling, inspiring—and until now, untold—story of the adventurous American artists, writers, doctors, politicians, and others who set off for Paris in the years between 1830 and 1900, hungry to learn and to excel in their work. What they achieved would profoundly alter American history. Elizabeth Blackwell, the first female doctor in America, was one of this intrepid band. Another was Charles Sumner, whose encounters with black students at the Sorbonne inspired him to become the most powerful voice for abolition in the US Senate. Friends James Fenimore Cooper and Samuel F. B. Morse worked unrelentingly every day in Paris, Morse not only painting what would be his masterpiece, but also bringing home his momentous idea for the telegraph. Harriet Beecher Stowe traveled to Paris to escape the controversy generated by her book, *Uncle Tom's Cabin*. Three of the greatest American artists ever—sculptor Augustus Saint-Gaudens, painters Mary Cassatt and John Singer Sargent—flourished in Paris, inspired by French masters. Almost forgotten today, the heroic American ambassador Elihu Washburne bravely remained at his post through the Franco-Prussian War, the long Siege of Paris, and the nightmare of the Commune. His vivid diary account of the starvation and suffering endured by the people of Paris is published here for the first time. Telling their stories with power and intimacy, McCullough brings us into the lives of remarkable men and women who, in Saint-Gaudens' phrase, longed "to soar into the blue."

Paris Survival Guide Reaktion Books

Cities represent civilisation and human achievement: they are

bubbling microcosms of virtues and vices, vanguards of technology and creative pursuits, incubators of traditions and melting-pots of diversity. More than half the world's population now lives in cities, and for travellers they hold an endless fascination. Here we present the 200 most vibrant, diverse, hypnotic and chaotic cities in the world, ranked in order as voted for by people who know - Lonely Planet's staff, authors, and readers. The list is as diverse as the people that created it. Of course, there are the usual suspects: Paris, London, New York - but also the unfamiliar, the exotic, and the tiny: Abuja (Nigeria), Nuuk (Greenland), Saint-Denis (Réunion) and Ulaanbataar (Mongolia). Every city has its own personality, in the form of its streets and buildings and in its human architecture. Taking our cue from the buzz on the street, we have captured the flavour of each city through the eyes of the typical citizen: hot conversation topics, urban myths, the best places to eat and drink and to seek out after dark. It's a tempting cocktail for the urban adventurer.

Accompanied by photographer Anaik Frantz, Francois Maspero embarked on a journey along the RER, the express subway which leads through the Paris suburbs. Getting off the train at each stop, he and Frantz present a picture of daily life in France which tourists seldom see: a world where names don't make sense, where immigrants from Burkino Faso live in run-down tower-blocks called Debussy on the avenue Karl Marx, their children dodging the police between the lycee Jules Valles and the Yuri Gagarin youth-club; a world where there are still memories of the Commune, the Popular Front or the camp at Drancy from where French officials sent a hundred thousand Jews to Auschwitz; a world where no one is a racist, but National Front posters are everywhere. Maspero's aim is to put this world back on the map.

This book explores poor relief and charitable health care in French cities during the seventeenth century, a period that witnessed much reform and change in the way these services were administered. By reintegrating the social aspirations of urban elites into the history of French poor relief, it shows how they initiated reform in towns and cities when it suited them, but where such reforms were not perceived as needed, or not affordable, they ignored central government edicts to build new institutions. In other words, reforms of poor relief and health welfare were local and shaped by local experiences, not as part of the crown's drive towards centralization.

When it was published in 1932, this revolutionary first fiction redefined the art of the novel with its black humor, its nihilism, and its irreverent, explosive writing style, and made Louis-Ferdinand Celine one of France's--and literature's--most important 20th-century writers. The picaresque adventures of Bardamu, the sarcastic and brilliant antihero of *Journey to the End of the Night* move from the battlefields of World War I (complete with buffoonish officers and cowardly soldiers), to French West Africa, the United States, and back to France in a style of prose that's lyrical, hallucinatory, and hilariously scathing toward nearly everybody and everything. Yet, beneath it all one can detect a gentle core of idealism.
