Updated for the 75th Anniversary of the Diary ' s first publication with a new introduction by Nobel

Prize – winner Nadia Murad “ The single most compelling personal account of the Holocaust ... remains astonishing and excruciating. ” —The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the “ Secret Annex ” of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short. This report documents the dynamics of violence against women in South Asia across the life cycle, from early childhood to old age. It explores the different types of violence that women may face throughout their lives, as well as the associated perpetrators (male and female), risk and protective factors for both victims and perpetrators, and interventions to address violence across all life cycle stages. The report also analyzes the societal factors that drive the primarily male — but also female — perpetrators to commit violence against women in the region. For each stage and type of violence, the report critically reviews existing research from Afghanistan, Bangladesh, Bhutan, India, Maldives,

Nepal, Pakistan, and Sri Lanka, supplemented by original analysis and select literature from outside the region. Policies and programs that address violence against women and girls are analyzed in order to highlight key actors and promising interventions. Finally, the report identifies critical gaps in research, program evaluations, and interventions in order to provide strategic recommendations for policy makers, civil society, and other stakeholders working to mitigate violence against women in South Asia.

Ramachandra Guha's *India after Gandhi* is a magisterial account of the pains, struggles, humiliations and glories of the world's largest and least likely democracy. A riveting chronicle of the often brutal conflicts that have rocked a giant nation, and of the extraordinary individuals and institutions who held it together, it established itself as a classic when it was first published in 2007. In the last decade, India has witnessed, among other things, two general elections; the fall of the Congress and the rise of Narendra Modi; a major anti-corruption movement; more violence against women, Dalits, and religious minorities; a wave of prosperity for some but the persistence of poverty for others; comparative peace in Nagaland but greater discontent in Kashmir than ever before. This tenth anniversary edition, updated and expanded, brings the narrative up to the present. Published to coincide with seventy years of the country's independence, this definitive history of modern India is the work of one of the world's finest scholars at the height of his powers.
