The perfect match of content and format: Craft supplies, a full-color how-to book and nobody-else-but-Klutz creativity, all packed in a sturdy, reusable plastic jar with a screw-top lid and a rope handle. The whole package is incredibly bright, cheerful, easy to stack and display, and completely shopwear-proof. Start with an empty Klutz Bucket. Fill with wooden animal shapes. Add eight acrylic craft paints, one brush, a fine point black marker and a 40-page Klutz book of full-color, paint-this-critter inspiration. And then, right at the end, toss in a good supply of wiggle eyes. End result? A zoo in a bucket. With it you can paint 24 wooden die-cut blanks into things like Technicolor tigers or polka-dotted pandas, paying absolutely no attention whatsoever to the way they're actually supposed to look.

Often the church is accused of being so embedded in the culture that effective prophecy leveled at the culture is impossible. But this book illustrates that there was a time and a place where the church community was faithful to its mission as the body of Christ, as church leaders led, people lifted high the cross, and they marched into the uncertainty that still prevails. Here is a time and place where the call to risky discipleship was answered not with whimpers, whines, and excuses, but with the power of faithful Christians living out their call. This book illustrates what it can mean to faithfully answer the call to discipleship and God's service. Many people wonder if they would be able to stand up for their faith if it meant great personal sacrifice or the sacrifice of people they love. They wonder what they would risk for their faith, if anything. In the United States where cost/benefit analysis is a popular way to assess risk, many Christians wonder if they might not have to stand alone, because too many see the risks as too costly. As suggested by the title, this book draws upon a collection of sermons and addresses given by Peter Storey in a variety of contexts between 1966 and 1993. The original audiences ranged from the all-white Central Methodist Church in Johannesburg, to the South African Council of Churches, to the nation of South Africa, and to the world. All of these sermons and addresses are directly related to specific historical events: security police confrontations, beatings, and tear-gassings in churches around the country of South Africa; an imposed State of Emergency; the murder of 14-year-old Stompie Sepie by Winnie Mandela's thugs; and the violent jockeying for power between Mandela's African National Congress, Chief Mangosutho Buthe's Inkatha Movement, and F. W. de Klerk's regime. The book offers the full perspective of what it means to speak truth, empower people to stand for the truth, and to pastor souls during times when living truth seems almost impossible. Key Features: 1. Foreword by Desmond Tutu 2. 15 chapters, each including a brief description of the original context, the sermon and its connection with the present, and a prayer 3. Epilogue by Will Willimon

New York Times and USA TODAY bestselling author DIANA PALMER returns with a fiery new couple! Wolf Patterson and Sara Brandon are archenemies from ages ago, but mischievous fate has brought the tall rancher with the pale blue eyes together with the dark-haired beauty—on nearby Wyoming and Texas ranches. At first, sparks fly, but despite Wolf's misguided notions about the spirited Sara and her indignance over the assorted injustices he has thrown her way, a truce—of sorts—forms. Suddenly Sara notices Wolf's face, while not conventionally handsome, draws her like no other man has ever attracted her. And Wolf sees into the vulnerable soul that Sara hides from the rest of the world. They are two passionate people with a talent for falling out. Will love be the spark they need to create what they both want the most...a family?

[The Neurosurgeon's Handbook](#) Harper Collins Gabrielle Hyde and Damian Hunt were ready to create a life together. But, as determined as they were to build a future, the demons they fought to overcome were just as determined to destroy it. As Hunt struggled to find the strength to trust Elle with his past, it abruptly collided with the present, forcing Elle to make the decision to walk away from the love of her life and, possibly, her only chance at true happiness. As the two attempt to find their footing, a dark secret larger than either Damian or Elle could have imagined lurks in the shadows, waiting to make itself known...Will their love survive? Will Elle's desire to protect Damian from their shattered pasts tear them apart, or will it make them stronger? Will Damian find his way back to his heart, or will he remain...A Dominant Fallen

On September 12, 1609, Henry Hudson first set foot on the land that would become Manhattan. Today, it's difficult to imagine what he saw, but for more than a decade, landscape ecologist Eric Sanderson has been working to do just that. Mannahatta: A Natural History of New York City is the astounding result of those efforts, reconstructing in words and images the wild island that millions now call home. By geographically matching an 18th-century map with one of the modern city, examining volumes of historic documents, and collecting and analyzing scientific data, Sanderson re-creates the forests of Times Square, the meadows of Harlem, and the wetlands of downtown. His lively text guides readers through this abundant landscape, while breathtaking illustrations transport them back in time. Mannahatta is a groundbreaking work that provides not only a window into the past, but also inspiration for the future.

A compact, readable and highly-authoritative source of critical neurosurgical information, Neurosurgery has been produced with the participation of some of the world's leading neurosurgeons and neuroclinicians and is based on the curriculum of British, European and North American neurosurgical training programs. The book is extensively illustrated with hundreds of figures demonstrating the imaging features of all major neurosurgical pathologies, including diagrams explaining key anatomical and surgical concepts, and images showing the features of common brain tumours. There are key references at the end of each chapter and critical commentary of neurosurgical literature is also included. The handbook concisely covers all aspects of adult and paediatric neurosurgery. It is systematically and clearly broken down into easy-to-follow sections such as introductory basic concepts, definitions, epidemiology, pathology, clinical and neuroradiological characteristics, clinical management and decision making. Additional sections on operative treatment include the key critical surgical anatomy, and clear, step-by-step descriptions of common surgical techniques. Widely accepted practice guidelines, major classification schemes and common scales are clearly presented and explained.
