THE BOOK OF PRIDE captures the true story of the gay rights movement from the 1960s to the present, through richly detailed, stunning interviews with the leaders, activists, and ordinary people who witnessed the movement and made it happen. These individuals fought battles both personal and political, often without the support of family or friends, frequently under the threat of violence and persecution. By shining a light on these remarkable stories of bravery and determination, THE BOOK OF PRIDE not only honors an important chapter in American history, but also empowers young people today (both LGBTQ and straight) to discover their own courage in order to create positive change. Furthermore, it serves a critically important role in ensuring the history of the LGBTQ movement can never be erased, inspiring us to resist all forms of oppression with ferocity, community, and, most importantly, pride

Sermons in Stones Tektime

As shown by China's relationship to Japan, and Japan's relationship to South Korea, even growing regional economic interdependencies are not enough to overcome bitter memories grounded in earlier wars, invasions, and periods of colonial domination. Although efforts to ease historical animosity have been made, few have proven to be successful in Northeast Asia. In previous research scholars anticipated an improvement in relations through thick economic interdependence or increased societal contact. In economic terms, however, Japan and China already trade heavily: Japan has emerged as China's largest trading partner and China as second largest to Japan. Societal contact is already intense, as millions of Chinese, Koreans, and Japanese visit one another's countries annually as students, tourists, and on business trips. But these developments have not alleviated international distrust and negative perception, or resolved disagreement on what constitutes "adequate reparation" regarding the countries' painful history. Noticing clashes of strong nationalisms around the world in areas like Northeast Asia, numerous studies have suggested that more peaceful relations are likely only if countries submerge or paper over existing national identities by promoting universalism. Pride, Not Prejudice argues, to the contrary, that affirmation of national identities may be a more effective way to build international cooperation. If each national population reflects on the values of their national identity, trust and positive perception can increase between countries. This idea is consistent with the theoretical foundation that those who have a clear, secure, and content sense of self, in turn, can be more open, evenhanded, and less defensive toward others. In addition, this reduced defensiveness also enhances guilt admission by past "inflictors" of conflict and colonialism. Eunbin Chung borrows the social psychological theory of self-affirmation and applies it to an international context to argue that affirmation of a national identity, or reflecting on what it means to be part of one's country, can increase trust, guilt recognition, and positive perception between countries.

By the time he died of cancer in 1970, after one season in Washington during which he transformed the Redskins into winners, Lombardi had become a mythic character who transcended sport, and his legend has only grown in the decades since. Many now turn to Lombardi in search of characteristics that they fear have been irretrievably lost, the old-fashioned virtues of discipline, obedience, loyalty, character, and teamwork. To others he symbolizes something less romantic: modern society's obsession with winning and superficial success. In *When Pride Still Mattered*, Maraniss renders Lombardi as flawed and driven yet ultimately misunderstood, a heroic figure who was more complex and authentic than the stereotypical images of him propounded by admirers and critics.

Grandad's Camper (A Grandad's Camper LGBTQ Pride Book for Kids in partnership with GLAAD) Simon and Schuster

From the USA TODAY bestselling author of *Sweet Thing* and *Nowhere But Here* comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M
