"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: -

Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

William Dean Howells' richly humorous characterization of a self-made millionaire in Boston

society provides a paradigm of American culture in the Gilded Age. After establishing a fortune in the paint business, Silas Lapham moves his family from their Vermont farm to the city of Boston, where they awkwardly attempt to break into Brahmin society. Silas, greedy for wealth as well as prestige, brings his company to the brink of bankruptcy, and the family is forced to return to Vermont, financially ruined but morally renewed. As Kermit Vanderbilt points out in his introduction, the novel focuses on important themes in the American literary tradition: the efficacy of self-help and determination, the ambiguous benefits of social and economic progress, and the continual contradiction between urban and pastoral values. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What

is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

From ancient ages, the commercial transactions were taking place under the customs regulating the subject and the obligations of parties etc.. These customs culminated into the Law of contracts, when the same was codified. The Law of Contracts in India defines Contract as an agreement enforceable by law, which offers personal rights, and imposes personal obligations, which the law protects and enforces against the parties to the agreement. The general law of contract is based on the conception, which the parties have, by an agreement, created legal rights and obligations, which are purely personal in their nature and are only enforceable by action against the party in default. In India, the Law of Contracts is contained in the Contracts Act, 1872, which was enacted to de fi ne the law relating to contracts. Over the period of nearly

100 years, the law of contract has developed and is fairly enriched with the judicial precedents and pronouncements, though it is cumbersome to grasp from the thick volumes on the Contract Act. In order to make this law simple and easily understandable, an effort is made under the “ INB Lectures series ’ a maiden introduction of India Netbooks. The authors feel that the law of contracts so simplified shall make it ‘ easy to understand ’ for the readers and the persons to the profession of law. Case laws, important to the understanding of the code, are incorporated at appropriate places, though restraint has been kept so that the book is not unnecessarily bulky. The authors feel that the readers shall find the book useful and look forward to receive with pleasure any comments and suggestion from the readers towards improving this book further.
