This Article is a brief overview of what the Reporters believe to be the four basic contributions of the Revised Uniform Partnership Act (RUPA or Act). First, RUPA changes the law of partnership breakups and gives greater stability to partnerships by abandoning the traditional rule that a partnership is dissolved every time a member leaves. Second, RUPA makes clear that partners are not fiduciaries among themselves in the same sense as disinterested trustees. Specifically, RUPA states that partners legitimately may pursue self-interest without automatically running afoul of their fiduciary duties. On the other hand, RUPA provides an irreducible core of fiduciary duties among partners. Third, RUPA rewrites the rules on the nature and transfer of partnership property. It adopts an entity approach for the sake of simplicity and provides for the filing of partnership statements, including statements of partnership authority, dissociation, and dissolution. Fourth, RUPA for the first time expressly authorizes the conversion and merger of partnerships and provides "safe-harbor" rules for those transactions.

This open access book assembles landmark studies on divorce and separation in European countries, and how this affects the life of parents and children. It focuses on four major areas of post-separation lives, namely (1) economic conditions, (2) parent-child relationships, (3) parent and child well-being, and (4) health. Through studies from several European countries, the book showcases how legal regulations and social policies influence parental and child well-being after divorce and separation. It also illustrates how social policies are interwoven with the normative fabric of a country. For example, it is shown that father-child contact after separation is more intense in those countries which have adopted policies that encourage shared parenting. Correspondingly, countries that have adopted these regulations are at the forefront of more egalitarian gender role attitudes. Apart from a strong emphasis on the legal and social policy context, the studies in this volume adopt a longitudinal perspective and situate post-separation behaviour and well-being in the life course. The longitudinal perspective opens up new avenues for research to understand how behaviour and conditions prior or at divorce and separation affect later behaviour and well-being. As such this book is of special appeal to scholars of family research as well as to anyone interested in the role of divorce and separation in Europe in the 21st century.

From ancient ages, the commercial transactions were taking place under the customs regulating the subject and the obligations of parties etc.. These customs culminated into the Law of contracts, when the same was codified. The Law of Contracts in India defines Contract as an agreement enforceable by law, which offers personal rights, and imposes personal obligations, which the law protects and enforces against the parties to the agreement. The general law of contract is based on the conception, which the parties have, by an agreement, created legal rights and obligations, which are purely personal in their nature and are only enforceable by action against the party in default. In India, the Law of Contracts is contained in the Contracts Act, 1872, which was enacted to define the law relating to contracts. Over the period of nearly 100 years, the law of contract has developed and is fairly enriched with the judicial precedents

and pronouncements, though it is cumbersome to grasp from the thick volumes on the Contract Act. In order to make this law simple and easily understandable, an effort is made under the “INB Lectures series” a maiden introduction of India Netbooks. The authors feel that the law of contracts so simplified shall make it ‘easy to understand’ for the readers and the persons to the profession of law. Case laws, important to the understanding of the code, are incorporated at appropriate places, though restraint has been kept so that the book is not unnecessarily bulky. The authors feel that the readers shall find the book useful and look forward to receive with pleasure any comments and suggestion from the readers towards improving this book further.
