Tribal Business Structure Handbook Oxford University Press

This handbook is primarily for the use of persons in the business of importing, manufacturing, and dealing in firearms defined by the National Firearms Act (NFA) or persons intending to go into an NFA firearms business. It should also be helpful to collectors of NFA firearms and other persons having questions about the application of the NFA. This publication is not a law book. Rather, it is intended as a ?user friendly? reference book enabling the user to quickly find answers to questions concerning the NFA. Nevertheless, it should also be useful to attorneys seeking basic information about the NFA and how the law has been interpreted by ATF. The book's Table of Contents will be helpful to the user in locating needed information. Although the principal focus of the handbook is the NFA, the book necessarily covers provisions of the Gun Control Act of 1968 and the Arms Export Control Act impacting NFA firearms businesses and collectors.

"Many interesting developments have occurred in the world of venture capital since the publication of the first edition of this book in 2006, which prompted us to revise the book for the second edition. While the organization of the book remains unchanged, many of the chapters are substantially rewritten. For example, in Chapter 5, we re-ranked top VC firms, incorporating the latest performance statistics, fundraising and investment activities, notable exits, and (as always) our subjective opinions. In Chapter 6, we examine further evidence of the deepening globalization of the industry. In Chapters 3, 4, and 7, we analyze the impact of the 1999-2000 Internet bubble years on the VC risk and returns, as investments made in those years are finally mature and thus now a part of the performance evaluation analysis. We also incorporated expositional improvements throughout the book based on reader feedback on the first edition. Another feature of the new edition is that the VCV model, used extensively in Part III of the book, is now available as a Web-based application available on <http://VCVtools.com>. Significant collaborative efforts went into developing this tool, which we believe will be of interest to a broad audience, including practitioners interested in valuing VC-backed company stocks and employee stock options"

Raising Entrepreneurial Capital guides the reader through the stages of successfully financing a business. The book proceeds from a basic level of business knowledge, assuming that the reader understands simple financial statements, has selected a specific business, and knows how to write a business plan. It provides a broad summary of the subjects that people typically research, such as "How should your company position itself to attract private equity investment?" and "What steps can you take to improve your company's marketability?" Much has changed since the book was first published, and this second edition places effects of the global recession in the context of entrepreneurship, including the debt vs. equity decision, the options available to smaller businesses, and the considerations that lead to rapid growth, including venture capital, IPOs, angels, and incubators. Unlike other books of the genre, Raising Entrepreneurial Capital includes several chapters on worldwide variations in forms and availability of pre-seed capital, incubators, and the business plans they create, with case studies from Europe, Latin America, and the Pacific Rim. Combines solid theory with a practitioner's experience and insights Case studies illustrate theory throughout the book Updated to reflect the realities of the global economic recession

ATF - National Firearms Act Handbook Wolters Kluwer Roman contract law has profoundly influenced subsequent legal systems throughout the world, but is inarguably an important subject in its own right. This casebook introduces students to the rich body of Roman law concerning contracts between private individuals. In order to bring out the intricacy of Roman contract law, the casebook employs the case-law method--actual Roman texts, drawn from Justinian's Digest and other sources, are presented both in Latin and English, along with introductions and discussions that fill out the background of the cases and explore related legal issues. This method reflects the casuistic practices of the jurists themselves: concentrating on the fact-rich environment in which contracts are made and enforced, while never losing sight of the broader principles upon which the jurists constructed the law. The casebook concentrates especially on stipulation and sale, which are particularly well represented in surviving sources. Beyond these and other standard contracts, the book also has chapters on the capacity to contract, the creation of third-party rights and duties, and the main forms of unjustified enrichment. What students can hope to learn from this casebook is not only the general outlines and details of Roman contract law, but also how the jurists developed such law out of rudimentary civil procedures. An online teacher's manual is available for instructors; to access it, see page xxi of the Casebook. Start Your Own Medical Practice BRILL

This Article is a brief overview of what the Reporters believe to be the four basic contributions of the Revised Uniform Partnership Act (RUPA or Act). First, RUPA changes the law of partnership breakups and gives greater stability to partnerships by abandoning the traditional rule that a partnership is dissolved every time a member leaves. Second, RUPA makes clear that partners are not fiduciaries among themselves in the same sense as disinterested trustees. Specifically, RUPA states that partners legitimately may pursue self-interest without automatically running afoul of their fiduciary duties. On the other hand, RUPA provides an irreducible core of fiduciary duties among partners. Third, RUPA rewrites the rules on the nature and transfer of partnership property. It adopts an entity approach for the sake of simplicity and provides for the filing of partnership statements, including statements of partnership authority, dissociation, and dissolution. Fourth, RUPA for the first time expressly authorizes the conversion and merger of partnerships and provides "safe-harbor" rules for those transactions.
