When Marriage Ends offers a comprehensive and insightful contribution to the study of economic effects of divorce and it also contributes to the comparative study of family policies and family law regimes in Europe. The book can be recommended not only to students and researchers interested in family studies but also to legal and public policy practitioners. Jana Chaloupková, Central European Journal of Public Policy This is a double-faced book, which should be read by everybody who is concerned about the societal effects of divorce. It shows that divorce has negative economic and social consequences, not only in the Anglo-Saxon countries, but also in the most generous welfare states of Europe, where divorce is widely accepted. Moreover, these effects are more negative for women than

for men, even in the most gender-equalitarian welfare state. But it also shows that social policies can mitigate these negative consequences. Jaap Dronkers, European University Institute, Italy In recent decades the probability of divorce and separation among married and cohabiting couples has increased significantly in most European countries. Focusing on both economic and social aspects, this comprehensive volume explores the consequences of partnership dissolution at the individual level. The contributors use personal characteristics, properties of the partnerships and the institutional context to explain coping behaviours. The book comprises reports on eight countries, which have tentatively been classified as: the male breadwinner (Belgium and Germany), the dual earner (Denmark, Finland and Sweden), the market (Great Britain) and the family model (Spain and Greece). It also contains four cross-national comparative studies addressing the wider impacts of divorce, including labour force participation, residential mobility and housing, household income, and poverty and lifestyle deprivation. Complemented by the editors authoritative introduction, this timely study will prove invaluable to graduate students and researchers interested in the economics and sociology of the family. Legal and public policy practitioners will also find the book an insightful addition to the current literature. Practice Options for the New Dentist Oxford University Press

The Government of Pakistan strongly supports public – private partnership (PPP) initiatives. From 1990 to 2019, Pakistan witnessed 108 financially closed PPP projects, with a total investment of approximately \$28.4 billion. About 88% of these projects are in the energy sector, attracting more than \$24.7billion, followed by investments in the port sector. In early 2021, Parliament approved the amendments to the 2017 PPP Law, enacting the Public Private Partnership Authority (Amendment) Act 2021. This further strengthens the enabling legal and regulatory framework for developing and implementing PPPs, thereby promoting private sector investment in public infrastructure and related services.

Law and Gender in Modern Ireland: Critique and Reform is the first generalist text to tackle the intersection of law and gender in this jurisdiction for over two decades. As such, it could hardly have come at a more opportune moment. The topic of law and gender, perhaps more so than at any other time in Irish history, has assumed a dominant place in political and academic debate. Among scholars and policy-makers alike, the regulation of gendered

bodies, and the legal status of sexual and gendered identities, is now a highly visible fault line in public discourse. Debates over reproductive justice (exemplified by the recent referendum to remove the '8th Amendment'), increased rights for lesbian, gay, bisexual and transgender persons (including the public-sanctioned introduction of same-sex marriage) and the historic mistreatment of women and young girls have re-shaped Irish public and political life, and encouraged Irish society to re-examine long-unchallenged gender norms. While many traditional flashpoints remain such as abortion and prostitution/sex work, there are also new questions, including surrogacy and the gendered experience of asylum frameworks, which have emerged. As policy-makers seek to enact reforms, they face a population with increasingly polarised perceptions of gender and a legal structure ill-equipped for modern realities. This edited volume directly addresses modern Irish debates on law and gender. Providing an overview of the existing rules and standards, as well as exploring possible options for reform, the collection stands as an important statement on the law in this jurisdiction, and as an invaluable resource for pursuing gendered social change. While the edited collection applies a doctrinal methodology to explain current statutes, case law and administrative practices, the contributors also invoke critical gender, queer and race perspectives to identify and problematise existing (and potential) challenges. This edited collection is essential reading for all who are interested in law, gender and processes of social change in modern Ireland.

Business Planning: Financing the Start-Up

Business and Venture Capital Financing, Third Edition uses a simulated deal format that is drawn from the “ deal-files ” of real world practicing lawyers. It integrates the teaching of transactional lawyering skills with the presentation of new substantive law that is critical to the success of a junior corporate lawyer practicing in a transactional setting. The book gives students an overview of the range of substantive law that lawyers representing new businesses need to be versed in. To bridge the gap between law school and practice, the authors integrate excerpts from sources authored by experienced practitioners, thus bringing practical and real-world insights to students.

Shannon Trevi ñ o joins as co-author on the new edition. Key Features: Integrated teaching of transactional lawyering skills with

the presentation of substantive law that is critical to the success of a junior corporate lawyer practicing in a transactional setting. Analysis of both the legal issues and the business considerations that must be taken in to account in planning the structure and negotiating the terms of a capital raising transaction for an early stage company. A simulated deal format to provide a real-world appreciation of the “ life cycle of a deal, ” with a new simulated client whose business is focused on addressing a need in the autonomous vehicle industry, which presents a timely topic for faculty to engage with students on at every juncture of the course. Graded memo assignments that are representative of the work assignments expected of a junior corporate lawyer practicing in a transactional setting and that relate directly to the substantive material that is part of the casebook reading assignments. A thoroughly revised Chapter 4 regarding federal securities laws, incorporating numerous legislative changes that have been adopted or have become effective since the publication of the second edition. Significant additions to Chapter 8, including an updated overview of venture capital and a broader discussion of the capital formation process prior to venture capital financing.
