This Eighth Edition of Social Statistics for a Diverse Society continues to emphasize intuition and common sense, while demonstrating that social science is a constant interplay between methods of inquiry and important social issues. Recognizing that today's students live in a world of growing diversity and richness of social differences, authors Chava Frankfort-Nachmias and Anna Leon-Guerrero use research examples that show how statistics is a tool for understanding the ways in which race, class, gender, and other categories of experience shape our social world and influence social behavior. In addition, guides for reading and interpreting the research literature help students acquire statistical literacy, while SPSS demonstrations and a rich variety of exercises help them hone their problem-solving skills.

The New Imperatives of Educational Change is a clarion call to move beyond the standardized testing and marketplace competition that have become pervasive in school systems to focus instead on creating the conditions that will encourage all students to become critical and independent thinkers. Dennis Shirley presents five new imperatives to guide educators and policymakers towards a re-thinking of what it means to teach effectively and to learn in depth. The evidentiary imperative requires educators to attain a better grasp of what data actually reveal about international trends in student learning. The interpretive imperative encourages mindful deliberation before acting on evidence in order to promote the integrity of a school community. The professional imperative describes new international research findings on promising pedagogies and curricula that propel learning in new directions. The global imperative argues that we all must look beyond our national boundaries to improve the flourishing of all young people, wherever they may be found. Finally, the existential imperative reminds us that students look to their teachers as role models who can dignify learning with meaning and embellish life with joy. Visionary in its scope and practical in its details, The New Imperatives of Educational Change is an indispensable road map for all teachers, principals, and system leaders.
Agriculture, Rural Development, and Related Agencies Appropriations for Fiscal Year 1998 Adda247 Publications
Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database.
The National Druggist
Parents had questions about the tests their children took at school. They considered them to be common sense questions. They posed them to the businesspeople, publishers, and politicians who championed tests. They also posed them to the school administrators, teachers, and union leaders who criticized them. This book examines the questions the parents posed, the answers they elicited, and the changes they prodded.
