He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience

provided the material for his works, and made him a socialist. "The son of the Wolf" (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, "The Call of the Wild" (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including "The Sea-Wolf" (1904), "White Fang" (1906), "South Sea Tales" (1911), and "Jerry of the South Seas" (1917). One of London's most interesting novels is the semi-autobiographical "Martin Eden" (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism. Mick Walker's European Racing Motorcycles
Robert Bentley, Incorporated
First published in 1920, this book is a translation-the only known work of British scholar CLARENCE EDWIN ROLT (1880-1917)-of *On the Divine Names and The Mystical Theology*, by Dionysius the Areopagite, a first-century bishop of

Athens. The author is often also referred to as "pseudo-Dionysius" because a variety of anachronisms suggest that the manuscript was actually written much later by an unknown writer. Despite the book's unclear origins, the writings are still greatly valued for their theological insight. Saint Thomas Aquinas often quoted from pseudo-Dionysius, as did many other famous and influential theologians and philosophers. Pseudo-Dionysius deals, here, with the Supra-Personality of God. Personality, by definition, is a quality limited to an individual. God, on the other hand, is the opposite of an individual. God is in all things, so one cannot speak of a personality for the divine. Rather, pseudo-

Dionysius proposes a Supra-Personality, which describes aspects and qualities of the universal being. Religious scholars and Christians wanting a different understanding of the relationship between God and the universe will find this a challenging but ultimately thought-provoking study. *Scotland's Government* Yamaha YZF-R1 1998-2003 This is the story of the Audi TT- one of the biggest motoring sensations of the 1990s. Audi's most exciting car since the original Quattro has won plaudits from the moment of its launch, and has remained hugely popular in spite of question marks over the safety of early versions. James Ruppert tells the complete story of the TT roadster and coupe, in all their versions, finding where the design came from, where it is going to and the impact this little

big car has had on the motoring world. *The Climate of Darkness* Test Prep Books Provides an overall introduction to the welding process, illustrating most of the common equipment and work techniques for both the home and shop welding. *I Will Survive* HarperCollins This text explains how Graham Henry developed the patterns and philosophies that have seen him so successful at every level of rugby. It offers a wealth of advice on tactics, planning and the game in general.'
