Passions Of The Soul Rene Descartes and Passions of the Soul

Passions are in Descartes a real curiosity: in fact, Descartes is the thinker of the cogitor, i.e. the certainty of the subject 's existence, that it to say an activity. But the

passions are the dimension of passivity, the flaw that undermines man ' s free will. Thus, Descartes poses the problem of the passions as the problem of the action of the body (movement) and the actions of the soul ...

The passions of the soul, Rene Descartes, 1650 AD
Les Passions de l' â me (The passions of the soul) is a treatise on moral philosophy, published in Paris in 1649, in which the philosopher Ren é Descartes (1596 – 1650) theorizes on “ the passions, ” or what contemporary readers

would call emotions.

Descartes argues that passions are a matter of nature and therefore of the body.

Passions Of The Soul Rene

In the late 20th and early 21st centuries, it is quite common for philosophers to accuse Descartes of ignoring the visceral and emotional aspects of life and equating all thought with reason alone. In THE PASSIONS OF THE SOUL he belies this reading with the proclamation, "all the good and evil of this life depend

on [the passions] alone".

Ren é Descartes wrote a book, The Passions of the Soul, 1 presents a strong view of dualism. In this sense, it is similar to Plato's view of the soul, where Plato posited a soul who guides the body much like a helmsmen who pilots a ship. Descartes began by correctly noting there is an important difference between animate and inanimate bodies.
