Zimbabwe: The Urgency of Now, is a follow-up creative non-fiction book to Zimbabwe: The Blame Game. It goes further than The Blame Game and focuses on Zimbabwe in the GNU entity, the 2013 elections,

post elections and post GNU Zimbabwe, and Now. They are a myriad number of problems, issues, limitations that still unbundles Zimbabwe's push towards multiparty democracy, social justice, economic sanity and growth, and The Urgency of Now focuses on the solutions to these. It also tackles the land reform in South Africa, how this could be its biggest problem going forward. It goes further and tackles the larger Africa problem toward democracy, growth, stability and unity, and why the progress towards the United States of Africa has been moribund.

'Exams tend to corrupt; final exams corrupt finally.'
This novel is about exams, literature, sex, cancer and time. Part 1: 1961: Examining a mind. Pembroke College, Cambridge. Peter Green and his friends Jack (big, dangerous) and Casey (small, sinister) face final examinations in English. Keen, they discuss their

literary ideas. Peter, whose main study-aid is sexual pleasure, discards lissom Arabella, one of his two girlfriends. Competitive exams apparently subvert left-wing ideals. He alienates a don, Haggerty. Discoverer of literary 'covert plotting', Peter overlooks real-life covert plots. Part 2: 1969: Examining a campus. Sussex University. Jack, tricked by Haggerty, lectures there. Peter quarrels with radical students. Part 3: 2011: Examining a body. Hospitals in and around London. Peter undergoes intimate

examinations. Death makes incursions. Now what use is the study of literature? Cambridge IGCSE® and O Level Computer Science Programming Book for Python Yellowreef Limited

discussed and expected, but only in recent years have researchers adopted a variety of innovative techniques for developing, assessing and validating specific tests of second or foreign language proficiency and their impact on education and society. Indeed, as the present volume clearly demonstrates, many different techniques for empirical analysis and types of evidence may be used to assess and interpret the validity of diverse aspects of
