Howard—young, fabulous,

and desperate to transform her life—in this funny, quirky, and endearing story about finding perfect happiness in life’s most imperfect moments. **WHEN LIFE GIVES YOU LEMON-DROP MARTINIS...** Real-estate broker Lanie Howard figures she has the perfect man, the perfect job, and the perfect life. Then she stumbles across her old Someday Jar, the forgotten glass relic where she stashed all the childhood wishes—no matter how crazy—that her father encouraged her to

write down on the backs of Chinese restaurant fortunes. She used to be fun once! What happened to her? **DON'T CHOKE ON THE RIND.** Although Lanie is wary of uncorking her past, when an attractive stranger saves her from a life-or-death encounter with a lemon peel at the bottom of a martini glass, she realizes that life is way too short for regrets. Now, jar in hand, Lanie decides to throw caution to the wind, and carry out everything she had once hoped to do, even if it means

leaving her perfectly “perfect” life behind... **CAUGHT IN BETWEEN**

The noble wives in María de Zayas's *Desengaños* suffer terrible fates: one is beheaded, another poisoned, one is cemented into a chimney, while yet another is locked into a tiny wall closet where she dies. The hallmark of Zayas's aesthetics, these characters are the central reason why her fiction has increased in popularity through the ages. Yet their stories pose an apparent contradiction between the author's pro-female rhetoric and her gusto for killing model

women, then beautifying their mutilated cadavers. Dressed to Kill reconciles Zayas's Desengaños with the age in which it was written, contextualizing the book in baroque poetics, the Spanish honour code, and fifteenth-century martyr saints' lives. Elizabeth Rhodes elegantly uncovers Zayas's intention to reform the Spanish nobility by displaying noble misbehaviour and its deadly consequences. Her book concludes by detailing the Desengaños' intriguing influence on the aesthetic base of Gothic literature by revealing that its authors were avid readers of Zayas.

A Vos Marques! Clarkson Potter
This book covers the main topics that students need to learn in a course on Industrial Organization. It reviews the classic models and important empirical evidence related to the field. However, it will differ from prior textbooks in two ways. First, this book incorporates contributions from behavioral economics and neuroeconomics, providing the reader with a richer understanding of consumer preferences and the motivation for many of the business practices we

see today. The book discusses how firms exploit consumers who are prone to making mistakes and who suffer from cognitive dissonance, attention lapses, and bounded rationality, for example and will help explain why firms invest in persuasive advertising, offer 30-day free trials, offer money-back guarantees, and engage in other observed phenomena that cannot be explained by the traditional approaches to industrial organization. A second difference is that this book achieves a balance between textbooks that emphasize

formal modeling and those that emphasize the history of the field, empirical evidence, case studies, and policy analysis. This text puts more emphasis on the micro-foundations (i.e., consumer and producer theory), classic game theoretic models, and recent contributions from behavioral economics that are pertinent to industrial organization. Each topic will begin with a discussion of relevant theory and models and will also include a discussion of concrete examples, empirical evidence, and evidence from case studies. This will

provide students with a deeper understanding of firm and consumer behavior, of the factors that influence market structure and economic performance, and of policy issues involving imperfectly competitive markets. The book is intended to be a textbook for graduate students, MBAs and upper-level undergraduates and will use examples, graphical analysis, algebra, and simple calculus to explain important ideas and theories in industrial organization. *Strong Female Protagonist*, *Book Two* Hachette UK

A Vos Marques! is an introductory course for students taking French as an option alongside their main degree course. It has been developed specifically for false beginners: students who have a slight acquaintance with the language.

The course comprises a student's book, teacher's book and 180 minutes of audio (available for free download at <http://www.routledge.com/books/details/9780415157285/>) and, through fifteen chapters, follows the progress of an English-speaking student studying in Paris, whose achievements are designed to reflect those of the course user. Special features include: * activities involving pair and group work * an aid to self-assessment at the end of each chapter * hints on vocabulary learning * clear and accessible layout including integrated cartoons. The guidance offered by the teachers book is of particular importance, as lower-level classes in universities are

often taught by native-speaking lecturers with little or no teaching training or experience.

"I've been unsure about many things in my life except for one thing, that I have always loved him. Every single minute of every single day that I have been on this earth, my heart has belonged to him. It has never been a question, never a doubt. The love had taken on many different forms over the years, but it had always been a constant. Everyone has their definition of love.

There have been countless songs sung about it. A gazillion books, articles, and poems written about it. There are experts on love who will tell you how to get it, keep it, and get over it. We're led to believe love is complicated. It's not the love that's complicated. It's all the crap that we attach to it and put in front of it that makes it difficult. If you're smart, you'll realize this before it's too late and simplify." -----

The Charm Offensive

Alison Holland's innovative book fills a gap in Beauvoir studies by focusing on the writer's frequently neglected novels and short stories, *L'Invitée*, *Les Mandarins*, *Les Belles Images*, and *La Femme rompue*. In illuminating the density and rich complexity of Beauvoir's style, Holland challenges the often accepted view that Beauvoir's writing is flat, detached, and controlled,

revealing, rather, that her prose is frequently disrupted and inflected by forceful emotion. Holland shows that excess and transgression are intrinsic qualities of the texts, and argues that Beauvoir's textual strategies duplicate madness in her fiction. Holland's reading of Beauvoir's fiction demonstrates the extent to which Beauvoir's fiction undermines an ideologically patriarchal position on language. Her study is important not only for its re-evaluation of Beauvoir as a fiction writer but for its contribution to the wider debate on madness and literature.

A fresh, new Canadian author, who is comparable to Marion Zimmer Bradley, debuts a brand new fantasy trilogy for all ages. The quest is on to find the coveted Stone of the Stars on the mystical isle of Trynisia, once a place where humans dwelt side by side with dragons. Four have set off on their journey to reach it-

Ailia, a daydreaming bookworm; Damion, a devoted missionary; Jomar, a half-breed soldier-slave; and Lorelyn, quite possibly a prophesied savior, who will one day guide her people in a battle against the Dark God. But can they reach the isle and the Stone of the Stars before the tyrannical God-King Khalazar finds it and uses it to rule the world?
