Practice Paper Ks3 Maths Level
6-8 Coordination Group Publication
Issues in Science Teaching covers
a wide range of important issues
which will interest teachers at all
phases in the education system.

The issues discussed include: the
nature and purposes of science
education in a multicultural society,
including the idea of science for all
the role and purposes of
investigational work in science
education assessment, curriculum
progression and pupil attitudes to
their science experience supporting
basic skills development in literacy,
numeracy and ICT, through science
teaching supporting cross-
curricular work through science
teaching taking account of
individual differences including

ability, special needs, learning style and the case for inclusion. The articles are strongly based on current research and are intended to stimulate and broaden debate among the readers. Written by practising science educators and teachers, this book offers new and interesting ways of developing science education at all levels.
