The purpose of this dictionary is to give an account of everything that relates to Christ - His Person, Life, Work, and Teaching. It is in a sense complementary to the

Dictionary of the Bible, in which, of course, Christ has a great place. But a dictionary of the Bible, being occupied mainly with things biographical, historical, geographical, or antiquarian, does not give attention to the things of Christ sufficient for the needs of the preacher, to whom Christ is everything. This is, first of all, a preacher's dictionary. The authors of the articles have been carefully chosen from among those scholars who are, or have been, themselves preachers. And even when the articles have the same titles as articles in the Dictionary of the Bible, they are written by new men, and from a new standpoint. It is thus a work which is quite distinct from, and altogether independent of, the Dictionary of the Bible. It is called a Dictionary of Christ and the Gospels, because it includes everything that the Gospels contain, whether directly related to Christ or not. Its range, however, is far greater than that of the Gospels. It seeks to cover all that relates to Christ throughout the Bible and in the life and

literature of the world. There will be articles on the Patristic estimate of Jesus, the Medieval estimate, the Reformation and Modern estimates. There will be articles on Christ in the Jewish writings and in the Muslim literature. Much attention has been given to modern thought, whether Christian or anti-Christian. Every aspect of modern life, in so far as it touches or is touched by Christ, is described under its proper title. James Hastings (1852-1922) was a distinguished scholar and pastor. He was founder and editor of the Expository Times and is also well known for editing the five-volume Dictionary of the Bible, as well as the Encyclopaedia of Religion and Ethics, the Dictionary of Christ and the Gospels, and the Dictionary of the Apostolic Church.

Writing History for the King  
Henry II and the Politics of Vernacular Historiography

Writing History for the King is at once a reassessment of the reign of Henry II of England (1133-1189) and an original contribution to our understanding of the rise of vernacular historiography in the high Middle Ages. Charity Urbanski focuses on two dynastic histories commissioned by Henry: Wace's Roman de Rou (c. 1160-1174) and Benoît de Sainte-Maure's Chronique des ducs de Normandie (c. 1174-1189). In both cases, Henry adopted the new genre of vernacular historical writing in Old French verse in an effort to disseminate a royalist version of the past that would help secure a grip on power for himself and his children. Wace was the first to be commissioned, but in 1174 the king abruptly fired him, turning the task over to Benoît de Sainte-Maure. Urbanski examines these histories as part of a single enterprise intended to cement the king's authority by enhancing the prestige of Henry II's dynasty. In a close reading of Wace's Rou, she shows that it presented a less than flattering picture of Henry's predecessors, in effect challenging his policies and casting a shadow over the legitimacy of his rule. Benoît de Sainte-Maure's Chronique, in contrast, mounted a staunchly royalist defense of Anglo-Norman kingship. Urbanski reads both works in the context of Henry's reign, arguing that as part of his drive to curb baronial power he sought a history that would memorialize his dynasty and solidify its claim to England and Normandy.
