WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army—Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

The book is a cutting-edge contribution to the debate which has occurred for some time on the pros and cons of secondary education becoming more closely and explicitly related to preparing young people for the world of work. The book provides concrete examples of the vocationalisation of secondary education, with particular reference to the situation in Africa. The target audience for the book includes policy-makers, practitioners, administrators, education planners, researchers, teachers and teacher educators with a concern about the relationship between secondary education and education for the world of work (with particular reference to technical and vocational education and training - TVET.) The book appears in the Springer book series on ‘ Technical and Vocational Education and Training: Issues, Concerns and Prospects ’ and compliments the ‘ International Handbook of Technical and Vocational Education and Training ’ and other publications in the ‘ International Library of TVET ’ all of which are publications of the ‘ UNESCO-UNEVOC International Centre for TVET ’ in Bonn, Germany

School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers and post-graduate students in the fields of science education and educational policy.

Inclusive Guide Provides Practical Applications for Workplace Education Theory from Diverse Perspectives The Wiley Handbook of Global Workplace Learning explores the field of workplace education using contributions from both experts and emerging scholars in industry and academia. Unlike many previously published titles on the subject, the Handbook focuses on offering readers a truly global overview of workplace learning at a price point that makes it accessible for independent researchers and Human Resources professionals. Designed to strike a balance between theory and practice, the Handbook provides a wealth of information on foundational topics, theoretical frameworks, current and emerging trends, technological updates, implementation strategies, and research methodologies. Chapters covering recent research illustrate the importance of workplace learning topics ranging from meditation to change management, while others give pragmatic and replicable applications for the design, promotion, and implementation of impactful learning opportunities for employees at any company, regardless of industry. A sampling of topics addressed includes: “Using an Experiential Learning Model to Design an Assessment Framework for Workplace Learning” “Measuring Innovative Thinking and Acting Skills as Workplace-Related Professional Competence” Multiple chapters specifically addressing international

business, such as “Competency in Globalization and Intercultural Communication”, “Global Strategic Planning” and “Global Talent Management” Research and recommendations on bridging generational and cultural divides as well as addressing employee learning disabilities With its impressive breadth of coverage and focus on real-world problem solving, this volume serves as a comprehensive tool for examining and improving practices in global workplace learning. It will prove to be a valuable resource for students and recent graduates entering the workforce and for those working in Human Resources and related fields.

This book is for students ’ who want to excel academically. The guideposts and principles contained in this book will show you why and how you will become a high-flying student. I managed the local library of Our Lady of Fatima Cathedral Catholic Church Kano for over four years as an “ unqualified librarian ” and I see different students preparing for different exams in a mediocre way. What is most shocking here is that; most of these students are mediocre students due to the fact that they lack the right approach to learning, studying and preparations required for academic excellence rather than the mere exertion of studies. The principles in this book are no respecter of persons, age, gender, race, background or your location. The results are the same to whoever would apply them. It contains the distilled essence of all that you need to know and do in your academic journey to excellence. This 21---Days course has SIX stages. Each Day ’ s message/material is divided into different sub-sections dealing with one central topic literally and in a juxtapositions context. Consequently, the reader is allowed to exercise his/her power of association and observation of ideas presented in connection to the other sub-sections and signposts illustrated in the book with the application exercises.

The Nigerian condition has been the subject of conversation among writers, policymakers, and market men and women. There is no where the subject is not broached or discussed and often solutions are proffered, from the rational to the mundane. This is to be applauded because a culture of debate is to be preferred to silence as it is a national asset. Indeed, it is the duty of the ruling elite within the state sphere to distil the feedback from the citizenry and turn it into an outcome that is healthy for the polity.

The Latin adage “ Si vis pacem, para bellum ” (if you want peace, prepare for war) is usually interpreted as ‘ peace through strength. ’ It expresses the idea that being armed and ready to fight in order to defend oneself is a viable way of keeping the peace. However, the truism of the adage is expressed by the author who argues for peace and sustainable development of Africa at large in the light of the Nigerian/Biafra struggle. He intellectually equips readers with memories of the past lest the mistakes of history be repeated. The author uses the power of the pen as a weapon mightier than the sword, to discuss the structures of peace in the African context. He weighs in a balance, the need for restructuring and the right for self-determination; the way to freedom and collective effort towards development. This volume contains articles that propose potential and functional solutions to the perennial challenges presently facing Nigeria as a country. Interestingly, the reflections recommend steps towards cordial reconciliation and the liberating spirit that would catalyze the restoration of an emerging nation (the Republic of Biafra). The volume further expands the ongoing ideas and thoughts on a variety of issues that offer roadmaps to the contextual problems of the indigenous people as well as the Christian Mission and evangelical witness. Furthermore, the author goes on to demonstrate that when dialogue is employed, peace makes its way in the hearts of the citizens, which ushers in the flourishing of good governance and economic growth. Hence, justice, equity, peace, equal rights and opportunity become the bedrock upon which every nation-state is supposed to be founded.

The role humans play in the field of information technology continues to hold relevance even with the industry ’ s rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects.

I know who I am Kelvin seemed desperate to win his father ’ s approval. However, Mr Eze not only seemed unwilling to bestow it, but hell bent in making life unbearable for his acclaimed son. Kelvin thought it would be best to find his true family rather than endure the torture of being the unwanted child. He realised that his quest for recognition was unlikely to succeed, so he set his eyes on freedom. In the meantime, Kelvin expected that a good academic performance would change his luck and put him right with Mr Eze or at least boost his confidence in his abilities. With all his attention on his studies, competing for the best grades against the leading brains in his class, especially Christian, an indomitable rival, he would not let school romance get in the way fo his goal. But slowly and steadily, Chioma, gained his trust and won him over. He would have to make a decision between holding on to his moral principle or satisfying his human desire for friendship. New Home, New Identity Marginalised and decimated, the Biafran people were forced to go to war and secede from Nigeria. But decades after losing the war and

embracing the Nigerian identity, they are still not treated as equal citizens in their home country. As a new wave of terrorism sweeps the northern parts of the country, the Biafran people, predominantly Igbo are again decimated as they have been for decades in every crises and this led to renewed discussions about their independence. For Biafra, the fight for equality was over and their Sovereignty was not negotiable. For Kelvin, it wasn't very different, and so his quest for truth and independence must begin. His compulsory holiday in Igbo land would expose him to the truth that might have indirectly caused him to abandon his academic pursuit. Perhaps, it was just an excuse to free himself from the clutch of Mr Eze and begin his quest for the truth about his identity.

Sounds of Sirens: Essays in African Politics & Culture critically examines the political and cultural landscape of the putatively primal continent since the advent of the post-colonial era. It is a scholarly but non-academic critique, thus rendering its contents readily accessible to the general reader. In the final analysis, Okoampa-Ahoofe concludes that there is an urgent need for altruistic and constructive leadership on the continent, in order to promptly lift Africa out of the raging morass of abject materialism and crass corruption in official circles.

The debut novel from Nigerian author Henri Eyo, Shatter the Destroyer is a provocative thriller that is as informative as it is captivating. Judas Toro is a fraudulent business tycoon who enters politics to amass even more wealth at the expense of the Nigerian people. However his ambitions begin to get out of hand when he put his own interests above those of the nation's. Eventually Toro's reckless attitude leads to his activities straying from being merely corrupt to violent. Using his cruiser as a mobile base of operations, the would-be politician carries out a series of criminal atrocities in Nigerian territorial waters. To put a stop to Toro's terrorist activities, the Commissioner of Police dispatches Sanayak Ambo, a point man for the National Intelligence Agency (NIA). Assigned to the Joint Task Force, Ambo is charged with stopping the vicious cycle that's been set in motion by the terrorist Toro. However Ambo quickly realizes that he will need to call on all of his experience and expertise in order to successfully carry out operation Shatter the Destroyer.
