While access to higher education has increased globally, student retention has become a major challenge. This book analyses various aspects of the learning pathways of black students from a range of disciplinary backgrounds at a relatively elite, English-medium, historically white South African university. The students are part of a generation of young black people who have grown up in the new South Africa and are gaining access to higher education in unprecedented numbers. Based on two longitudinal case studies, *Negotiating Learning and Identity in Higher Education* makes a contribution to the debates about how to facilitate access and graduation of working-class students. The longitudinal perspective enabled the students participating in the research to reflect on their transition to university and the stumbling blocks they encountered in their senior years. The contributors show that the school-to-university transition is not linear or universal. Students had to negotiate multiple transitions at various times and both resist and absorb institutional, disciplinary and home discourses. The book describes and analyses the students' ambivalence as they straddle often conflicting discourses within their disciplines; within the institution; between home and the institution, and as they occupy multiple subject positions that are related to the boundaries of place and time. Each chapter also describes the ways in which the institution supports and/or hinders students' progress, explores the implications of its findings for models of support and addresses the issue of what constitutes meaningful access to institutional and disciplinary discourses.

Freeing South Africans from Their Apartheid Mindset John Benjamins Publishing

Assembling a rich and diverse range of research studies on the role of plurilingualism across a wide variety of teaching and learning settings, this book supports teacher reflection and action in practical ways and illustrates how researchers tease out and analyze the complex realities of their educational environments. With a focus on education policies, teaching practices, training, and resourcing, this volume addresses a range of mainstream and specialized contexts and examines the position of learners and teachers as users of plurilingual repertoires. Providing a close look into the possibilities and constraints of plurilingual education, this book helps researchers and educators clarify and strengthen their understandings of the links between language and literacy and offers them new ways to think more rigorously and critically about the language ideologies that shape their own beliefs and approaches in language teaching and learning.

Experts from all over the world take a critical, highly international and often controversial perspective on the ADHD phenomenon – a condition that has reached global proportions, significantly affecting the lives of children, parents and teachers worldwide. This book raises a number of concerns often not covered by the material currently available to parents and practitioners.

Critical New Perspectives on ADHD unpicks the myths surrounding the development of this phenomenon and leaves no stone unturned in its search for answers. An in-depth exploration into the reasons for the emergence and maintenance of ADHD lead to suggested explanations of the dominance of US psychiatric models and the need for new markets for major pharmaceutical companies, as well as the functions that ADHD diagnoses fulfill in families, classrooms and communities. In a world where moves to educational inclusion are paradoxically paralleled by the ever-increasing use of medication to control children's behaviour, this book scrutinises current accepted practice and offers alternative perspectives and strategies for teachers and other education professionals. This is an invaluable resource for anyone with a serious interest in ADHD and other behavioural difficulties.

"This book was born out of an idea that I had during the period in which I spent time with several young people who had approached me to assist them in different ways, including personal development, career advancement and growth, as well as growing their businesses and entrepreneurial acumen and skills. I took the challenge but felt that more could be achieved, hence this book. The chapters in this book are written by each one of these young people. They chose the topics, guided by me, and the plan was to simply convey a message from each one of them about leadership. They did not do this for fame or to sell this book to make money, but to share their ideas. The topics covered in this book will appeal to different readers, and some readers might find more lessons in one chapter or in more chapters than one. I urge each one of you who read this book to pick one or a few lessons and share it with those you wish to make a difference to. Mentorship of young people is critical, but this does not mean that the mentors will provide handouts in the form of money. People who wish to grow, are not interested in money, they are interested in a piece of your generous heart." - Mike Teke

From the opening Sanskrit mantra to the final act of voting in South Africa's first democratic elections, this lyrical memoir provides a unique perspective on South Africa's modern history. The account shows how a young Hindu woman of Indian ancestry, living in South Africa in the 1940s, defied convention, married a Muslim man, and became an activist at time when Muslim women were seldom seen in such a role. As a teacher, she spoke up during the political strife of that highly segregated era, which included the relocation of Indians and angry student boycotts, and here shares her philosophies and insights into education. Filled with characters from both a personal and national context, the memoir captures the nuances of an important time and place.

South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and, to a much lesser extent, Afrikaans, but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools, which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students, not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Language Standardization and Language Change describes the formation of an early standard norm at the Cape around 1900. The processes of variant reduction and sociolinguistic focusing which accompanied the early standardization history of Afrikaans (or 'Cape Dutch' as it was then called) are analysed within the broad methodological framework of corpus linguistics and variation analysis. Multivariate statistical techniques (cluster analysis, multidimensional scaling and PCA) are used to model the emergence of linguistic uniformity in the Cape Dutch speech community. The book also examines language contact and creolization in the early settlement, the role of Afrikaner nationalism in shaping language attitudes and linguistic practices, and the influence of English. As a case study in historical sociolinguistics the book calls into question the traditional view of the emergence of an Afrikaans standard norm, and advocates a strongly sociolinguistic, speaker-orientated approach to language history in general, and standardization studies in particular.

Language Contact in Africa and the African Diaspora in the

Americas brings together the original research of nineteen leading scholars on language contact and pidgin/creole genesis. In recent decades, increasing attention has been paid to the role of historical, cultural and demographic factors in language contact situations. John Victor Singler's body of work, a model of what such a research paradigm should look like, strikes a careful balance between sociohistorical and linguistic analysis. The case studies in this volume present investigations into the sociohistorical matrix of language contact and critical insights into the sociolinguistic consequences of language contact within Africa and the African Diaspora. Additionally, they contribute to ongoing debates about pidgin/creole genesis and language contact by examining and comparing analyses and linguistic outcomes of particular sociohistorical and cultural contexts, and considering less-studied factors such as speaker agency and identity in the emergence, nativization, and stabilization of contact varieties.

Populere Afrikaanse musiek kunstenaars het sover goed gedoen in post-apartheid Suid-Afrika en geniet die entoesiastiese ondersteuning van lojale volgelinge. Hierdie ondersteuning word aangevuur deur 'n komplekse stel emosies wat verband hou daarmee "e;om Afrikaans te wees"e; in 'n kultureel pluralistiese samelewing. In Plate en Politiek ondersoek Van der Merwe die interaksie tussen populere musiek en die ontvouing van 'n Afrikaanse kultuurpolitiek vanaf die begin van die twintigste eeu tot die hede. Dit sluit 'n soektog in na die eerste opgeneemde Afrikaanse lieder en dokumenteer die daaropvolgende fases van musiekontwikkeling wat die agentskap van ordinere mense - kunstenaar en luisteraar - weerspieël teen die agtergrond van fundamentele sosiale en politieke verandering. Dit besin oor beide die musiekhoofstroom en meer alternatiewe musiek, en ontbloot onder andere, historiese voorbeelde van die akkommodering van, en verset teen, die meesternarratief van die Afrikanernasionalistiese ideologie, pogings van kulturele entrepreneurs om beheer uit te oefen oor populere Afrikaanse kultuur, klassenspanning,

blywende rasse-eksklusiwiteit, protes en sensuur, en die post'apartheid oproeping van Afrikaner nostalgie en wit slagofferskap. Uiteindelik bied Plate en Politiek 'n on-
onderbroke weergawe van , en 'n kritiese blik op, meer as 'n eeu van opgeneemde Afrikaanse musiek.

Plate en Politiek Multilingual Matters

This is a study of the vernacular speech of a mixed-race community in Cape Town. The author argues that historical factors and contemporary contexts of use have led to the development of a vernacular in which the boundaries between English and Afrikaans cannot always be discerned. Her case study thus poses challenges for theoretical accounts of code-switching.
