This book is open access under a CC BY 4.0 license. The book presents the Proceedings of the 13th International Congress on Mathematical Education (ICME-13) and is based on the presentations given at the 13th International Congress on Mathematical Education (ICME-13). ICME-13 took place from 24th- 31st July 2016 at the University of Hamburg in Hamburg (Germany). The congress was hosted by the Society of Didactics of Mathematics (Gesellschaft für Didaktik der Mathematik - GDM) and took place under the auspices of the International Commission on Mathematical Instruction (ICMI). ICME-13 brought together about 3.500 mathematics educators from 105 countries, additionally 250 teachers from German speaking countries met for specific activities. Directly before the congress activities were offered for 450 Early Career Researchers. The proceedings give a comprehensive overview on the current state-of-the-art of the discussions on mathematics education and display the breadth and deepness of current research on mathematical teaching-and-learning processes. The book introduces the major activities of ICME-13, namely articles from the four plenary lecturers and two plenary panels, articles from the five ICMI awardees, reports from six national presentations, three reports from the thematic afternoon devoted to specific features of ICME-13. Furthermore, the proceedings contain descriptions of the 54 Topic Study Groups, which formed the heart of the congress and reports from 29 Discussion Groups and 31 Workshops. The additional important activities of ICME-13, namely papers from the invited lecturers, will be presented in the second volume of the proceedings.

Richard Leonard's Twixtujons is a collection of entertaining and poignant anecdotes chronologically structured from the Civil Rights protests of the 1960s through the educational skirmishes of the new Millennium. Twixtujons celebrates his thirty-two happy years teaching high school students and honors the one constant for all teachers throughout the years: the timeless gift of their making teenagers feel special-and safe-in their home away from home. Adults will hear the banter of teachers and students enjoying one another, and recall their favorite classrooms. Teenagers

will find a teacher's personal thoughts about them surprising-and encouraging. Teachers will recognize themselves and their students in Leonard's tales and appreciate his respect for a noble profession, familiar to all but understood best by those fortunate enough to teach. "Best book I ever read. They should make a movie."-Trixie Laverne

Last Years Solved Papers (SSC): Maharashtra Board Class 10 for 2022 Examination INDIA EXAM PORTAL

The Shanghai school system has attracted worldwide attention since its impressive performance in the Programme for International Student Assessment (PISA) in 2009. The system ranks as a 'stunning success' according to standards of the Organisation for Economic Co-operation and Development (OECD). Shanghai also stands out for having the world's highest percentage of 'resilient students' - students from socio-economically

disadvantaged backgrounds who emerge as top performers.

Learning From Shanghai: Lessons on Educational Success offers a close-up view of the people and the policies that have achieved such world-class performance.

Based on research and personal observation gathered during the author's recent field work with school principals, teachers and students, this book explores the factors that explain Shanghai's exceptional success in education. The approach combines high standards of scholarly research and analysis with the author's unique personal insights, as evidenced by chapters entitled Education is Filling a Bucket and Lighting a Fire and Tiger Mothers, Dragon Children.

Drawing on her experience as an education professional and a teacher of teachers, Charlene Tan thoroughly examines and analyzes the people, the policies and the practices that distinguish Shanghai educators. The contents include

comprehensive details on the Shanghai approach to quality education, from discussion of the balance between centralization and decentralization, to school autonomy and accountability, to testing policy and professional development for teachers. The book includes detailed tables on curriculum and school performance targets, sample appraisal forms for teachers and students, and dozens of photographs. The author is an Associate Professor at the National Institute of Education, Nanyang Technological University, Singapore.
