That isn't to say your guide isn't good though - I find myself nodding my head at some parts, and sucking air through my teeth at others. The Summoner is a very hard class to optimize because of the huge number of options at your disposal.

This one was a doozy: a complete guide to every single deity in Pathfinder who offers an Obedience, as well as the nine prestige classes that feed into those Obediences. Many of the Obedience boons on tap in this guide are, quite simply, unique in Pathfinder, and it's been an absolute joy to get to read through them, rate them, and improve my understanding of Pathfinder's religious lore.

Advice on a good summoner build I've been trying to come up with a good summoner build but because I don't know the spell list I don't really know what classe/classes would make the best summoner. I was thinking an MT made of necro wiz and herald caller of asmodeus but I'm not sure where the "summons" are in wiz and if they get an animate dead spell anyway.
