**Pathology Review** Elsevier Science Limited

This book contains 300 multiple choice questions (MCQs), in the format of a single best answer (SBA) from four options, for undergraduate medical students preparing for the Duke Elder prize exam run by the Royal College of Ophthalmologists (RCOphth) annually. The content is organised in line with topics drawn from the candidate information pack provided by the RCOphth. Each question is supplemented with a detailed explanation of the right answer as well as explanations for the alternative answers, elucidating common mistakes made by students. These explanations are supplemented with schematic diagrams which greatly aid understanding. There are 8 chapters focusing on topics outlined in the Duke Elder exam, each containing a set of 25 questions and answers. This allows us to cover the most commonly seen topics appearing in the exam. The book will also provide a full mock assessment which will offer a unique opportunity for candidates to apply their knowledge in an exam context. The exam format is such that candidates must complete 90 MCQs in the space of 2 hours. Our mock will provide candidates with a 100 MCQ mock to be completed in the space of 2 hours 15 minutes.

**Pathology for the Physical Therapist Assistant** JP Medical Ltd

The only review book to cover both anatomic and clinical pathology, Pathology Exam Review offers excellent preparation for the American Board of Pathology Anatomic and Clinical Pathology examinations. **(with Explanatory Answers)** CRC Press

"MCQs, SAQs, EMQs and OSCEs for Oral Pathology and Oral Medicine-An exam-focused Approach" is designed to serve as a companion to the available textbooks in oral pathology and oral medicine and is meant to serve as a revision tool for dental students and graduates preparing for examinations. The book is structured to complement student lecture notes, recommended textbooks and past exam papers. Globally, the current trend is to use a combination of multiple-choice questions (MCQs), short answer questions (SAQs), extended matching questions (EMQs) and objective structured clinical examination (OSCE) stations in the examination process. Available textbooks in oral pathology and oral medicine are not of much value to students preparing for exams using these assessment formats. The aim of this book therefore is to offer students with a single source that would assist them to prepare for exams. Target audience for this book includes dental students, oral health therapy and dental hygiene students, overseas-trained dental graduates preparing for board or licensing examinations and those preparing for membership or fellowship examinations of the Royal Surgical Colleges.
