Saunders Company In his life-changing book, Dr. Taylor Hartman introduces you to the People Code and why people do what they do. The concept of Motive is a fresh method for analyzing your own innate personality as well as that of

those around you. You then have the ability to utilize that knowledge to improve workplace and personal relationships. As an author, psychologist, and leadership coach, Dr. Hartman offers a remarkably astute system for segmenting everyone into specific Motive-types denoted by a color: Red (power wielders), Blue (do-gooders), White (peacekeepers), and Yellow (fun lovers). He then explains how to

Saunders Pathophysiology for the Health Professions is a fundamental pathophysiology text designed specifically for students in any

health professions field. It emphasizes the basic principles of disease processes in a clinical context, supported by concrete examples. The first two sections cover basic concepts of pathophysiologic processes such as inflammation and infections, as well as conditions that may alter a patient's health status by mimicking pathophysiological processes or affecting the process of

disease. The last section on disorders of the body systems highlights commonly occurring problems and selected topics relevant to each system.

Chapters in this section follow a consistent format, including a review of anatomy and physiology, concepts of disease, and specific disorders. Key terms at the beginning of each chapter - help to identify new vocabulary
