## Patterns Of Inheritance Worksheets & Teaching Resources | TpT

The three most common and important patterns of inheritance in humans are; autosomal recessive, autosomal dominant, and x-linked recessive. There are, of course, other patterns but these are the...

Complex Patterns Of Inheritance Worksheets - Learny Kids Genetics Worksheet #11:

Review: Summary of Inheritance Patterns: This worksheet requires students to complete a table summarizing the characteristics of each genetic inheritance pattern. Students must identify how to write the genotypes, describe the hybrid phenotype, and give specific examples of each pattern including autosomal simple dominance, incomplete dominance, co-dominance, sex-

linked traits, polygenic traits, multiple alleles, and pleiotropy.
