Stuart Little Rosetta Books

"Aside from its perfect fit of critic and subject, Laurence A. Rickels's book provides the most thorough and exhaustive reading of Philip K. Dick's literary work that exists. He goes through all the novels literally, both the science fiction works and the so-called mainstream novels Dick did not publish in his lifetime. The reader of science fiction should welcome a book like this, which is both knowledgeable of the SF tradition tradition and creatively analytical. I could not put this book down once I began to read it".---George Slusser, University of California, Riverside --

Make Room! Make Room! as more and more people retire, they will stop working as relatively fewer working people have to support growing numbers of dependent elderly. Purpose and a Paycheck tells the compelling story of how a growing movement of older entrepreneurs and part-time workers are creating a stronger and more vibrant economy. Whether you're a corporate executive, business owner, policymaker, or moving into the later season of your career, the stakes for America's aging population are high. People 65 and older will account for 20 percent of the population in 2030, up from 13 percent in 2000. Many prognosticators blame the aging population for the stagnating economy, citing that a Paycheck debunks this line of thought by showing how a growing movement of elderly entrepreneurs and part time workers are creating conditions for a stronger and more vibrant economy. Growing numbers of Americans are no longer retiring in the traditional sense. The numbers are striking and largely unappreciated. The labor force participation rate of men 60 years and over has risen nearly one-

third from a low of 26 percent in 1996 to 35 percent in 2014. The comparable rate for women is from 15 percent to 25 percent. Even more impressive, 25.5 percent of new business ventures in 2016 were started by the 55-to-64-year-old age group, up from 14.8 percent in 1996. People in their 50s and 60s are launching new businesses at nearly twice the rate of people in their 20s. America's aging society and workforce is redefining work for all generations and is among the most significant long-term forces shaping the U.S. economy and society, alongside globalization, automation and climate change. Instead of an economic deadweight, America's aging population holds the promise of getting back the economy mojo. Reframing aging will result in faster rates of economic growth and higher living standards for all of us in addition to a more fulfilling and financially

secure second half of life for our aging population.

"The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of Crazy Rich Asians Amy Tan's beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary Amy Tan: Unintended Memoir on Netflix Four mothers, four daughters, four families whose histories shift with

the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.
