[American Payroll Association \(APA\) Basic Guide to Payroll, 2016 Edition](#) McGraw-Hill Education

"Based on International Financial

Reporting Standards, this textbook was written by Henry Dauderis and published by Athabasca University's David Annand, EdD, MBA, CA, Professor of Accounting in the Faculty of Business. It contains 13 chapters and includes discussion questions, cases and comprehension problems. The first four chapters provide a succinct overview of the financial accounting process before delving into specific topics in later chapters. This second edition has been professionally edited and significantly revised based on instructor feedback. Notable changes include: information about the classified balance sheet; notes to the financial statements, audit report and management discussion; analysis have been moved up to chapter 4 including an introduction to accounting for payroll, sales taxes, contingent liabilities and warranty reserves, among others, and a comprehensive demonstration problem has been added; accounting for proprietorships has been expanded in chapter 12; a section on notes receivable has been added to chapter 6; coverage of currently liabilities has been significantly expanded in chapter 9. Accounting for LIFO inventory valuation has been eliminated from the relevant chapter. A free, nearly 1,000-page student workbook has been developed to accompany the text. Students can print out solution outlines as they need them and then fill in solutions by hand."--BC Campus website.

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of *Financial Accounting: IFRS* highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt *Financial* have come to rely, while putting the focus on

international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.
