Accounting for Business: An Introduction, second edition, has been thoroughly revised to provide vocational students with a comprehensive overview of key financial principles. Its business-oriented focus combined with a clear, concise writing style — an approach proven successful in the first edition — helps students gain competency in preliminary accounting concepts and applications in a practical way. Students will learn the principles that underpin the recording and control of business transactions. They will also learn how to build an accounting system for commercial businesses, ranging from the smallest enterprise to a larger trading business.

The Payroll Book is the only book that demystifies payroll with clear, concise, and real-world examples on how to tackle the process. "The Payroll Book will be a valuable resource for the small business owner as well as for the entrepreneur planning a new venture. Thorough, well-organized, and thoughtfully written, this practical guide is an essential tool for managing the payroll process." —Marilyn K. Wiley, Dean, College of Business, University of North Texas "Failing to comply with the withholding, tax remittance, and report filing requirements in handling business payroll carries a high cost. Charles' book will guide entrepreneurs through the minefields of payroll processing and reporting in language that business owners can understand. Whether you already own or are planning to start your own business, The Payroll Book is an essential tool." —James A. Smith, Past President and Chairman, Texas Society of CPAs "If accounting is something you have not paid keen attention to in your startup, then this book can demystify the whole thing for you and then some! Logically set-up and highly practical in its approach! I highly recommend this book for any startup, entrepreneur, and, frankly, anyone thinking about starting a business. That said, if you already started a business it's just as important—this is a must-read!" —Hubert Zajicek, CEO, Co-founder and Partner, Health Wildcatters "Wow! This is the most comprehensive book of its kind. I have worked in payroll for over 25 years, and I

would recommend this book as a reference to anyone who has a hand in payroll. From the novice just entering the field to the seasoned veteran, there is something in this book for everyone." —Romeo Chicco, President, PayMaster

The lending industry is comprised of a wide variety of sectors, such as banking, credit cards, mortgages, leasing and consumer finance. Many of these sectors have interconnections and synergies. In addition, a large number of related services and technologies

have a major influence on the lending and credit business. These services include e-commerce, credit risk analysis, call centers and information technologies. Rapid changes have taken place in lending in recent years. For example, large amounts of business and consumer debt are now syndicated or securitized. Meanwhile, non-bank firms, such as GE, have become immense competitors in the lending arena, and international acquisitions are shaping up the globalized banking industry of the near future. This carefully-researched book (which includes a database of leading companies on CD-ROM) is a banking, credit and mortgages market research and business intelligence tool-- everything you need to know about the business of banking, credit cards, mortgages and lending, including: Money center banks; Regional banks; Savings associations; Globalization of the banking and lending industries, including our profiles of nearly 350 of the world's leading international banking firms; Mortgage banking and brokerage; Home equity loans; Credit cards; Lending and other services provided by non-bank enterprises; Significant trends in banking and lending technologies; Risk analysis, payment processing, call centers and other support services; Online banking trends; ATM trends and technologies; Banking industry software.

Since 1995, the Dept. of Defense's (DoD) multibillion dollar business systems modernization program has been designated as high risk, and it continues to do so today. To assist in addressing DoD's modernization challenges, the Ronald W. Reagan National Defense Authorization Act for FY 2005 requires the DoD to, among other things, report specific information about business system investments, including: (1) milestones and actual performance against specified measures and any revisions; and (2) actions taken to certify that a modernization investment involving more than \$1 million meets defined conditions before obligating funds. This report focused on the FY 2010 report's compliance with, these provisions of the act. Illus. This is a print-on-demand publication; it is not an original.
