Drawing on their decades of teaching experience,

William Briggs and Lyle

Cochran have created a calculus text that carries the

teacher's voice beyond the classroom. That voice-

evident in the narrative, the figures, and the questions

interspersed in the narrative- is a master teacher leading

readers to deeper levels of understanding. The authors

appeal to readers' geometric

---

intuition to introduce fundamental concepts and lay the foundation for the more rigorous development that follows. Comprehensive exercise sets have received praise for their creativity, quality, and scope. Note: This is the standalone book if you want the book/access card order the ISBN below:

three-semester calculus course. Proven in North America and abroad, this classic text has earned a reputation for excellent accuracy and mathematical rigour. Previous editions have been praised for providing complete and precise statements of theorems, using geometric reasoning in applied problems, and for offering a range of applications across the sciences. Written in a clear, coherent, and readable form, *Calculus: A Complete Course* makes student comprehension a clear priority. Dr. Christopher Essex joined Bob Adams as a new co-author on the 7th edition and has an expanded role in the 8th edition. Instructors and students will appreciate new and expanded examples, new exercises, and a new Chapter 17: Differential Forms and Exterior Calculus. MyLab and Mastering from Pearson improve results for students and educators. Used by over ten million students, they effectively engage learners at every stage. MyMathLab is being used in universities all over the world to improve student performance. MyMathLab has immersive content and engaging tools, along with time-saving automatic grading. MyMathLab is everything that I need to get good results from my students...It saves me a lot of time so I have more time to do what I really should do and that's teach and help my students. - Dr Morten Brekke, Agder University, Norway. With MyMathLab, students gain knowledge that they will use throughout their lives, and universities gain a partner deeply committed to helping students and educators achieve their goals. For students
