Calculus with Applications, Tenth Edition (also available in a Brief Version containing Chapters 1-9) by Lial, Greenwell, and Ritchey, is our most applied text to date, making the math relevant and accessible for students of business, life science, and social sciences. Current applications, many using real data, are incorporated in numerous forms throughout the book, preparing students for success in their professional careers. With this edition, students will find new ways to get involved with the material, such as Your Turn exercises and Apply It vignettes that encourage active participation. The MyMathLab(r) course for the text provides additional learning resources for students, such as video tutorials, algebra help, step-by-step examples, and graphing calculator help. The course also features many more assignable exercises than the previous edition.

Proofreading, Revising & Editing Skills Success in 20 Minutes a Day Pearson Education (Us)

A leader in Introduction to Educational Research courses, Educational Research: Competencies for Analysis and Applications, ninth edition, remains a practical text focused on the skills and procedures students need in order to become competent consumers and producers of educational research. The accessible writing style and light, humorous tone of this book helps to demystify and enliven this demanding course. The text uses a direct, step-by-step approach to the research process. Tasks are included throughout the text to guide students through the process of creating their own research report. Published research articles are now included in every research methods chapter to provide students with illustrations of exemplary qualitative and quantitative research. Key changes in the ninth edition include an expanded coverage of qualitative research through a new chapter on Case Study Research (Chapter 17), a new chapter on Survey Research (Chapter 7), an increased emphasis on ethical considerations in the conduct of educational research (Chapter 1), and significant updates to Descriptive Statistics (Chapter 12) and Inferential Statistics (Chapter 13) that increase the coverage of how to use technology in the research process."

Customer Experience (CE) is becoming seen as a key component of business strategy, yet knowing the practical steps of what to do can be tricky. The Customer Experience Book helps you understand where you are now, what to do, and how to improve for your business. From Customer Journey Mapping to using Big Data, this is the ultimate Customer Experience manual for businesses, whatever the size of your company. Split into two parts, you'll discover:

- Why customer experience is so important in business – and how it applies to you
- How to use customer experience tools in your business – step by step guides on how to use CX metrics and how to learn from them

Alongside the theory and practical how-to guidance, there will be a range of examples of 'thinking differently' about everyday situations to engage the reader. Plus, with case studies from International Companies, readers will discover not only what works well but also the hard lessons they have learned. The Customer Experience Book shows you how to understand, measure and improve customer experience in your business, whatever your level.

For undergraduate or graduate courses that include planning, conducting, and evaluating research. A do-it-yourself, understand-it-yourself manual designed to help students understand the fundamental structure of research and the methodical process that leads to valid, reliable results. Written in uncommonly engaging and elegant prose, this text guides the reader, step-by-step, from the selection of a problem, through the process of conducting authentic research, to the preparation of a completed report, with practical suggestions based on a solid theoretical framework and sound pedagogy. Suitable as the core text in any introductory research course or even for self-instruction, this text will show students two things: 1) that quality research demands planning and design; and, 2) how their own research projects can be executed effectively and professionally.

Drive Right Emphasizes the connections between communication and our daily lives. Communication: Making Connections, a top-selling hybrid text, is unique in its integrated "Making Connections" theme and emphasis on technology. While introducing the basic principles of public speaking, interpersonal communication and group communication, the text stresses communication competence by constantly applying a solid theoretical foundation through everyday and relevant communication examples, thought-provoking questions, and boxed features. MyCommunicationLab is an integral part of the Seiler program. Key learning applications include MediaShare, an eText, and a study plan. A better teaching and learning experience This program will provide a better teaching and learning experience—for you and your students. Here's how:

- Personalize Learning— MyCommunicationLab is online learning. MyCommunicationLab engages students through personalized learning and helps instructors from course preparation to delivery and assessment
- Improve Critical Thinking— Chapter summaries are organized by learning objectives to help students focus on what they need to learn in each chapter.
- Engage Students—New examples and an increased emphasis on technology are relevant to today's students in a variety of ways.
- Support Instructors— A full set of supplements, including MyCommunicationLab, provides instructors with all the resources and support they need.
