"I must congratulate you on GLOBISH THE WORLD OVER. It's a pioneering text of great importance, full of enthralling insights for native and non-native English users alike." -- Robert McCrum, author, The Story of English and Literary Editor, London Observer.
Globish, as a concept, takes to task the world hegemony of arrogant English-speakers. Hence the landmark book Don't Speak English - Parlez Globish became a best-seller in French, and other languages, but it never appeared in English. GLOBISH THE WORLD OVER is the first book written in Globish-English. Non-native English speakers from non-Anglophone countries use English better between themselves than with any native English speaker. Globish codifies their very efficient "similar limitations." The word Globish may strike English-speakers as an "odd" way to rename their English. However billions of speakers in Brazil, Russia, India and China will be the new "owners" of what the world is now calling Globish. The implications are far-reaching. GLOBISH THE WORLD OVER discusses this phenomenon, and demonstrates that Globish - as a deliberate and sufficient subset of English for international communication - is limited more by a person's communication ability than by mere words.

From "America's nerviest journalist" (Newsweek)--a breath-taking epic, a magnificent adventure story, and an investigation into the true heroism and courage of the first Americans to conquer space. "Tom Wolfe at his very best" (The New York Times Book Review) Millions of words have poured forth about man's trip to the moon, but until now few people have had a sense of the most engrossing side of the adventure; namely, what went on in the minds of the astronauts themselves - in space, on the moon, and even during certain odysseys on earth. It is this, the inner life of the astronauts, that Tom Wolfe describes with his almost uncanny empathetic powers, that made The Right Stuff a classic. The Reading With Giggles & Games Learn-To-Read System works in a dramatically effective way because it uses several proprietary learning strategies, in combination, that create an ideal learning state in the mind and body of the student. No other system combines these learning strategies in the same way and no other system has been able to demonstrate more effective learning results. The children are happier, they learn faster and their teachers and parents are amazed at how much more quickly these students learn to read than other students who are taught with other outmoded, traditional teaching methods. When you child starts to recognize letters, numbers and their associated sounds they are ready for the Reading With Giggles and

Games program. This wonderful system can help you, as a parent, be much more effective in your mission to help your child to learn to read without the hassle and frustration that often accompanies the process with other traditional learn to read methods.
