The Rockswold/ Krieger algebra series fosters conceptual understanding by using relevant applications and visualization to show students why math matters. It answers the common question When will I ever use this? Rockswold teaches students the math in context, rather than including the applications at the end of the presentation. By seamlessly integrating meaningful

applications that include real data and supporting visuals (graphs, tables, charts, colors, and diagrams), students are able to see how math impacts their lives as they learn the concepts. The authors believe this approach deepens conceptual understanding and better prepares students for future math courses and life."

For courses in Intermediate and College Algebra. This package includes MyMathLab. Intermediate through College Algebra: A Streamlined Experience College Algebra with Intermediate Algebra: A Blended Course is an innovative new program from the Beecher et al. author team. Designed to meet your changing needs in Intermediate Algebra and College Algebra courses, this program eliminates the repetition in topic coverage across the traditional, two-course sequence. The result is a streamlined course experience that makes better use of time and resources. The careful arrangement of topics--one building on the next without redundancy--motivates and creates a solid foundation of knowledge. This new, streamlined approach to these courses is complemented by the authors' innovative ability to help you "see the math" through their focus on visualization, early introduction to functions and graphing, and making connections between math concepts and the real world. Personalize learning with MyMathLab. MyMathLab is an online homework, tutorial, and assessment program designed to work with this text to engage you and improve results. Within its structured environment, you are able to practice what you learn, test your understanding, and pursue a personalized study plan that helps your absorb course material and understand difficult concepts. With this edition, the authors focused on developing MyMathLab features that help you prepare better and get you thinking more visually and conceptually. 0134556577 / 9780134556574 College Algebra with Intermediate Algebra: A Blended Course-- Access Card Package, 1/e Package consists of: 0134555260 / 9780134555263 Intermediate and College Algebra 0321431308 / 9780321431301 MyMathLab -- Glue-in Access Card 0321654064 / 9780321654069 MyMathLab Inside Star Sticker

The Tobey/Slater/Blair/Crawford series builds essential skills one at a time by breaking the mathematics down into manageable pieces. This practical "building block" organization makes it easy for students to understand each topic and gain confidence as they move through each section. Students will find many opportunities to check and reinforce their understanding of concepts throughout the text and its MyMathLab course. With this revision, the author team has added a new Math Coach feature

that provides students with an office hour experience by helping them to avoid commonly made mistakes. With Tobey/Slater/Blair/Crawford, students have a tutor, a study companion, and now a coach, with them every step of the way.
