Exploring Science

International Year 8

Workbook McGraw-Hill Education

Recommended for primary and middle school students, Universal Science is a series of eight books that adheres to the National Curriculum Framework (2005). The books have been designed in accordance with the latest guidelines laid down by the National Council of Educational Research and Training. The series is based on extensive feedback received from teachers and education consultants experienced in teaching and interacting with students in this age group. All the books present concepts and provide exercises with the view to nurturing scientific temperament in young learners. The well-structured chapters, interspersed with interesting information and questions make learning almost effortless. Together with the activities that instill the spirit of experimentation, the detailed coverage of topics and the variety of exercises lend the textbooks the right

balance between the theoretical and practical aspects of Science.

Exploring Science 7

Prentice Hall

"Environmental Science introduces students to the Earth's physical and biological systems, and the interactions of humans with these. This revision introduces new content and aligns the workbook to its supporting digital resources. Content developments include updates on the Gulf of Mexico oil spill and the Fukushima Daiichi nuclear disaster, and in-depth coverage of energy extraction issues, pollution, and the wider environmental implications of urban development. The ideal companion to both the APES curriculum and the IB Environmental Systems and Societies"--Back cover.

Pearson Science 7

Activity Book

General Science

Student Workbook

Pearson Education India

The Second Edition of the

Pearson English 7 Activity

Book offers updated texts,

activities, design and

coverage of the Australian

Curriculum: English. It

caters for students of all

abilities, including

students with English as

an Additional Language.

The Pearson English

Activity Books are

designed to develop and

consolidate students'

knowledge and

understanding of the

English language and

grammar. They integrate

cumulative learning in the

Language strand of the

curriculum, as well as in

the Literature and Literacy

strands. Using the Activity

Books, students develop

higher order language and

literacy skills. They are supported with a solid language foundation, clear explanations and scaffolded learning.

Students are exposed to rich and varied literature sources and text types, including contemporary and classic texts, Australian Aboriginal storytelling and news articles. Each level of the Activity Books includes core units which offer clear

Language explanations

followed by scaffolded

activities to use the

language in context and

build on grammar,

vocabulary, spelling,

reading and writing skills.

At the back of the book,

four revision units support

students in preparing for

summative assessment.

Teachers will also find

extension activities, tests,

pedagogical support,

Australian Curriculum

correlation charts and

more online for free.

Middle Grade Science

2011 Earths Structure:

Student Edition Longman

Prentice Hall Physical

Science: Concepts in

Action helps students

make the important

connection between the

science they read and

what they experience

every day. Relevant content, lively explorations, and a wealth of hands-on activities take students' understanding of science beyond the page and into the world around them. Now includes even more technology, tools and activities to support differentiated instruction!
