Now fully revised and updated for its sixth edition, Inside Book Publishing is the classic introduction to the book publishing industry. Giles Clark and Angus Phillips offer authoritative coverage of all sectors of the industry, from commercial fiction and non-fiction to educational publishing and academic journals. They reveal how publishers continue to adapt to a fast-changing and highly interconnected world, in which printed books have proved resilient alongside ebooks and the growth of audio. Major themes are explored, including the development of digital products and the use of social media in book marketing, as well as those that affect publishers' businesses, such as the rise of internet retailing; rental models for student textbooks; and open access, where academic content is free to the user. Case studies from industry experts give fascinating perspectives on topics such as crowdfunding, self-publishing and how authors can market themselves. The book provides excellent overviews of the main aspects of the publishing process: commissioning authors, product development, design and production, marketing, sales and distribution. As a manual for those in the profession and a guide for the potential publishers of the future, Inside Book Publishing remains a seminal work for anyone with an interest in the industry. It will also be of interest to authors seeking an insider's view of this exciting industry.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate

the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Supervision is the cornerstone of clinical training across all types of mental health providers. It facilitates the growth of mental health trainees and maintains the integrity of the field of mental health services by ensuring the competency of clinicians. However, the process can be complex and potentially confusing for both supervisors and trainees at any stage of their development or post-licensure career. Utilizing strength-based approaches is crucial to the success of supervision. This workbook facilitates a collaborative and strength-based approach to clinical supervision that both supervisors and trainees can use during the entire course of supervision, or for specific goals related to supervision. Each chapter of this workbook contains information and activities specific to both the trainee and supervisor to facilitate dialogue about individual and combined strengths, areas for growth, and goals for collaborative work. This is an essential start-to-finish guide addressing the entire supervision process, from preparing for the first session to conducting the last session, and everything in between.
