In the second edition of Reading with Meaning, Debbie Miller shares her new thinking about comprehension strategy instruction, the gradual release of responsibility instructional model, and planning for student engagement and independence. It has been ten years since the first edition, in which Debbie chronicled a year in her own classroom. Reading with Meaning, Second Edition supports that work and expands her vision of strategy instruction and intentional teaching and learning. Debbie believes that every child deserves at least a full year of growth during each classroom year and offers planning documents with matching assessments to ensure that no child falls through the cracks. The second edition also provides new book recommendations that will engage and delight students, and current picture books for reading aloud and strategy instruction. This new edition reflects Debbie's professional experiences and judgment, her work in classrooms and collaboration with colleagues, and the current research in the field, showcasing her newest, best thinking.

"Teaching for agency and understanding works for everyone. So, start where you are, use what you have, teach whoever comes through your door." - Wendy Ward Hoffer Phenomenal Teaching is a professional development workshop in a book. The text charts a pathway for teachers to cultivate agency and foster understanding for every learner. It provides research, classroom examples, planning tools, and opportunities to use your background knowledge and talk back to the text. This book is interactive and intentionally designed with lots of open space to be your personal thought playground as you navigate this journey. Graphic organizers invite you to think and plan, and each chapter closes with an invitation for reflection. Chapter one explores the critical foundation for effective teaching - our purpose and beliefs as teachers. Chapters two through seven offer six instructional approaches that, when used together, can make all the difference for student learning: planning, community, workshop, thinking strategies, discourse, and assessment. Wendy asks questions

and expects a response. "Write in this book." She says, "I truly invite you to write all over it - annotate, underline, ask, respond. You will learn more, have a record of your thinking, and it will be more fun."

The regulation of pharmacy technicians in Canada has led to an expanded scope of practice. Despite some variations from jurisdiction to jurisdiction, the core nine competencies of pharmacy technicians practice identified by the National Association of Pharmacy Regulatory Authorities (NAPRA) remain consistent nationally. In order to become regulated (certified) a pharmacy technician must satisfy the requirements of the Pharmacy Examining Board of Canada (PEBC) by completing successfully the Qualifying Exam divided in Part 1: MCQ (questions) and Part 2: OSPE (stations) to ensure pharmacy technicians have the necessary entry-level professional knowledge, skills and abilities to work effectively and safely within their scope of practice. The following core nine competencies of pharmacy technician practice, represent the keystones of the Qualifying Exam: 1. Ethical, Legal and Professional Responsibilities 2. Patient Care 3. Product Distribution 4. Practice Setting 5. Health Promotion 6. Knowledge and Research

Application Pharmacy technicians and pharmacists work as a team to ensure optimal delivery of drug therapy. To that end, pharmacy technicians are primarily responsible for the technical aspects of a prescription whereas pharmacists focus on its clinical implications. Both groups assume responsibility for their own actions, contribute to the overall functioning of the pharmacy, and are accountable to the public. A candidate for OSPE Exam must be prepared to demonstrate practical skills in interactive and non-interactive stations. Stations are designed to evaluate several skills such as: - Gathering information from a Standardized Patient, Standardized Client or Standardized Health Professional to solve a drug-related problem - Gathering information from a Standardized Patient, Standardized Client or Standardized Health Professional to solve an ethical issue - Addressing the questions of a Standardized Patient, Standardized Client or Standardized Health Professional - Making a referral when appropriate - Screen and evaluate new prescriptions - Document information in a patient record - Check the accuracy of patient records - Check the accuracy of prepared medications - Update a patient record - Check the accuracy of prepared/compounded medications - Check the accuracy of compounding techniques - Compound a product
