Pedigree Worksheet You can look at a pedigree and determine whether traits are dominant or recessive, and you can also tell if it is sex-linked or autosomal. A sex-linked recessive characteristic is determined by an allele that is carried only on the X chromosomes. The shorter Y chromosome does not carry an allele for a sex-linked trait.

Pedigree Charts Worksheet(s)

The family represented by Pedigree 1 is a good example of how autosomal dominant diseases appear in a pedigree. Each of the four hallmarks of autosomal dominant inheritance are fulfilled.
