I have the 205-024c also. Same problem, so I pulled mine a part and found three broke bolts. Changed the bolts, but now have to reseal it and fill it up with gear oil and Hydrostatic fluid. Peerless was not to clear on the hydro fluid, so I.m looking for more info.

"Peerless shift transmissions are STEEL GEARS. Peerless Variable Speed Transmissions(old buntons, exmark,bobcat,nothing made since 1989) are BRASS. If you have a shift lever coming out of the transmission itself, it's a peerless shift transmission. If your shift lever is on the "dashboard" and moves a belt, it's a Variable speed trans."
