Pressurized Spectra IV Series - Pelco

For complete installation instructions for a Spectra IV SE Horizon dome system, refer to the installation manual shipped with the back box. Note: Please refer to the Important Note shipped with the dome drive before installing the back box, dome drive, or lower dome. The Important Note contains vital information about managing the bubble seam.

Spectra IV Series Spectra IV SE Series

The default setting for the dome drive is 2400 baud. If you are using a Pelco D-type controller, do not reset SW2 switches 1 to 3 or SW2 switches 6 to 8. Pelco P-type controllers can operate at 2400, 4800, and 9600 baud. Set the SW2 switches (6, 7, and 8), located on the base of the dome drive, to the same baud as the Pelco P-type controller.

Spectra V Series – Analog Cameras | Pelco

IV SL and Spectra IV SE are Pelco's premier integrated dome systems. These systems feature a high resolution camera/optics package with configurable dome drive software. This manual is designed primarily to be a reference tool for the installation and operation of your system.
